

Scans yanggu

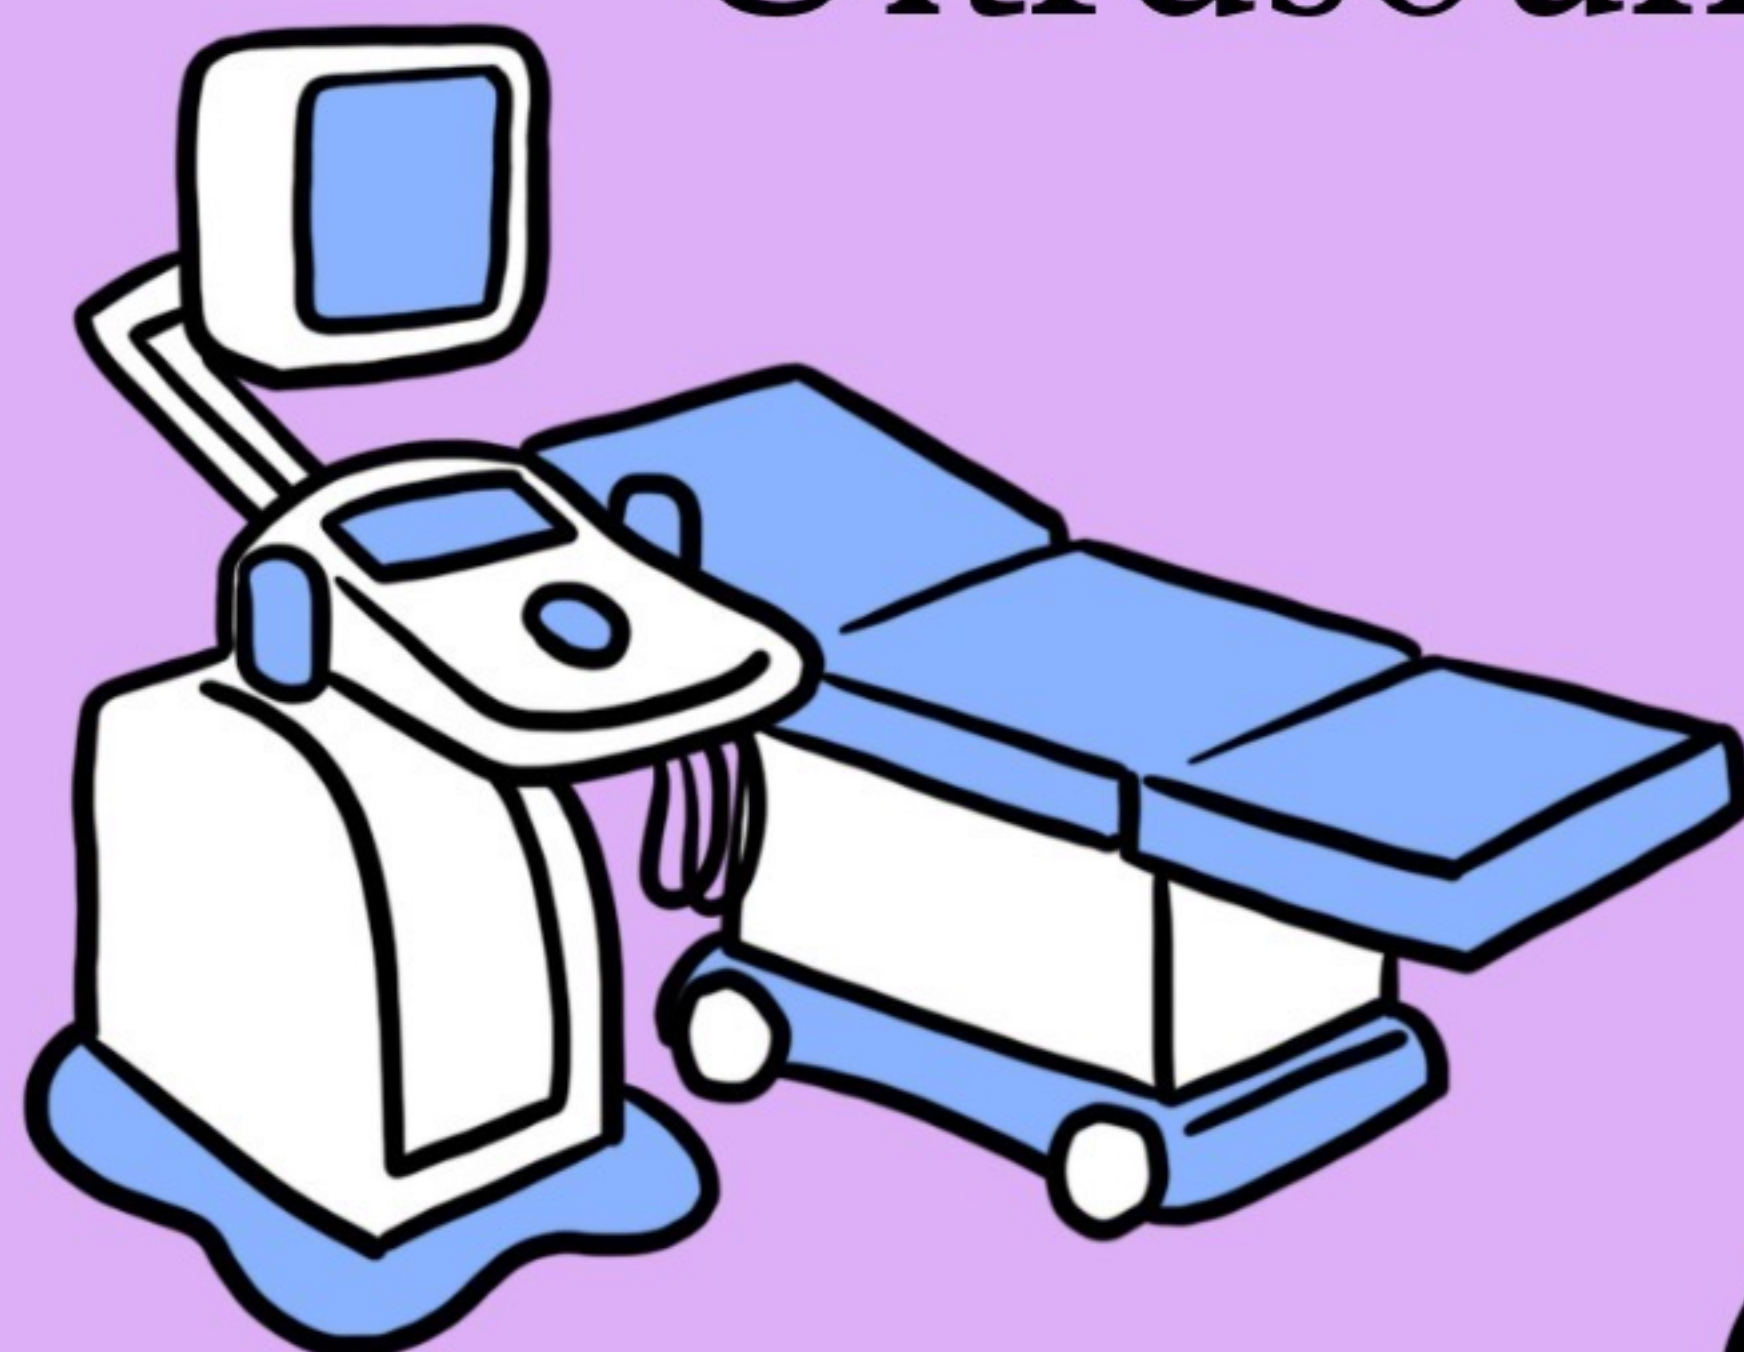

Habari, Jina langu 'naitwa' Kirra na
ningependa kukufahamisha namna
nilivyofanyiwa scans.

Nilipokuwa naumwa sana nilifanyiwa
scan tofauti tofauti kama.

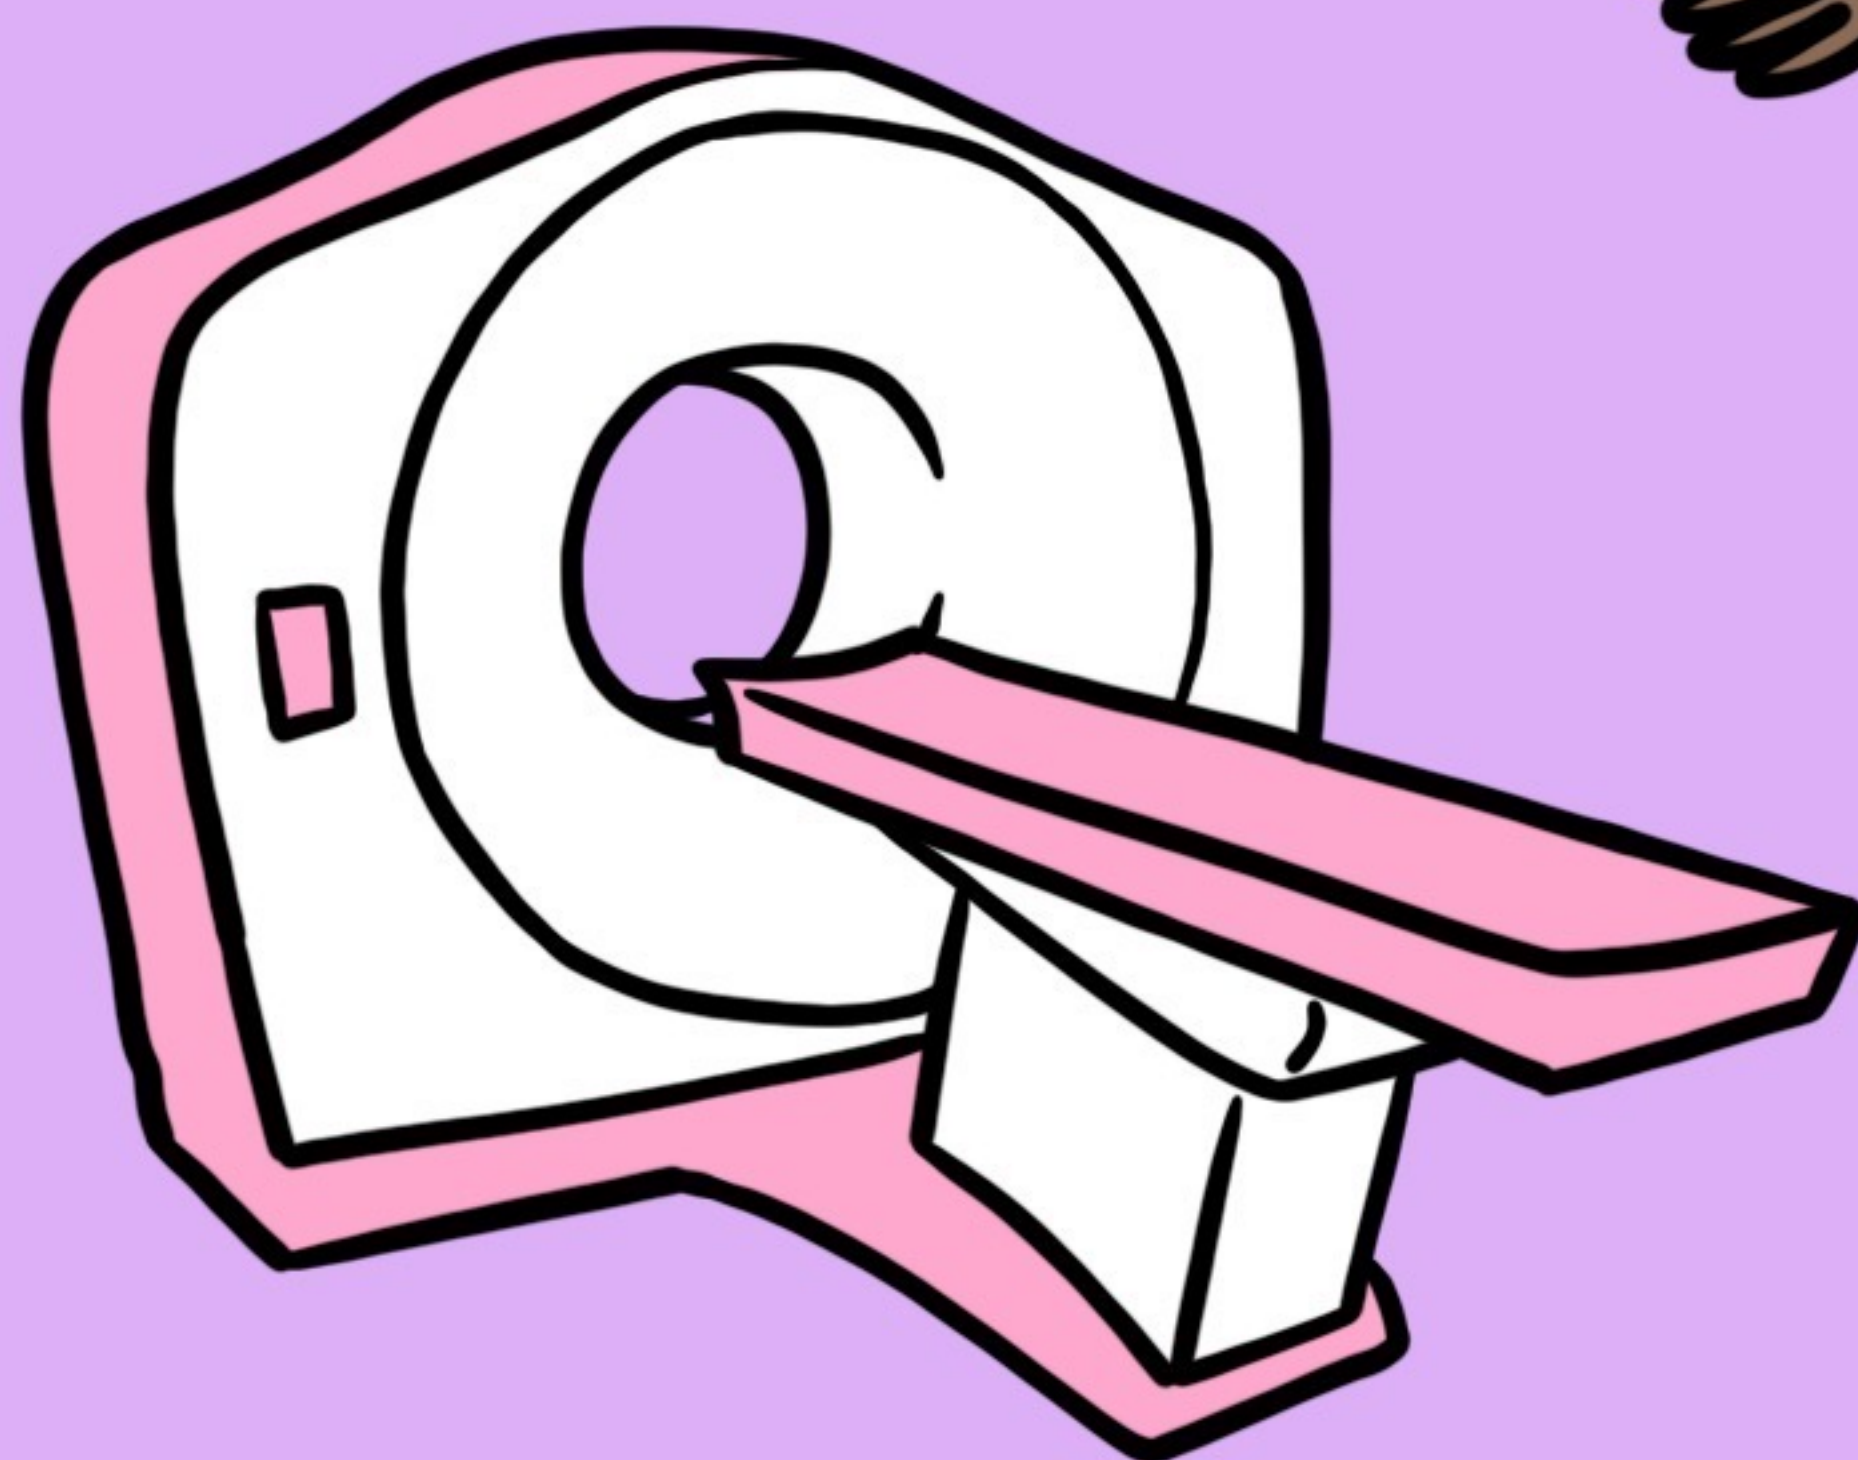

Ultrasound

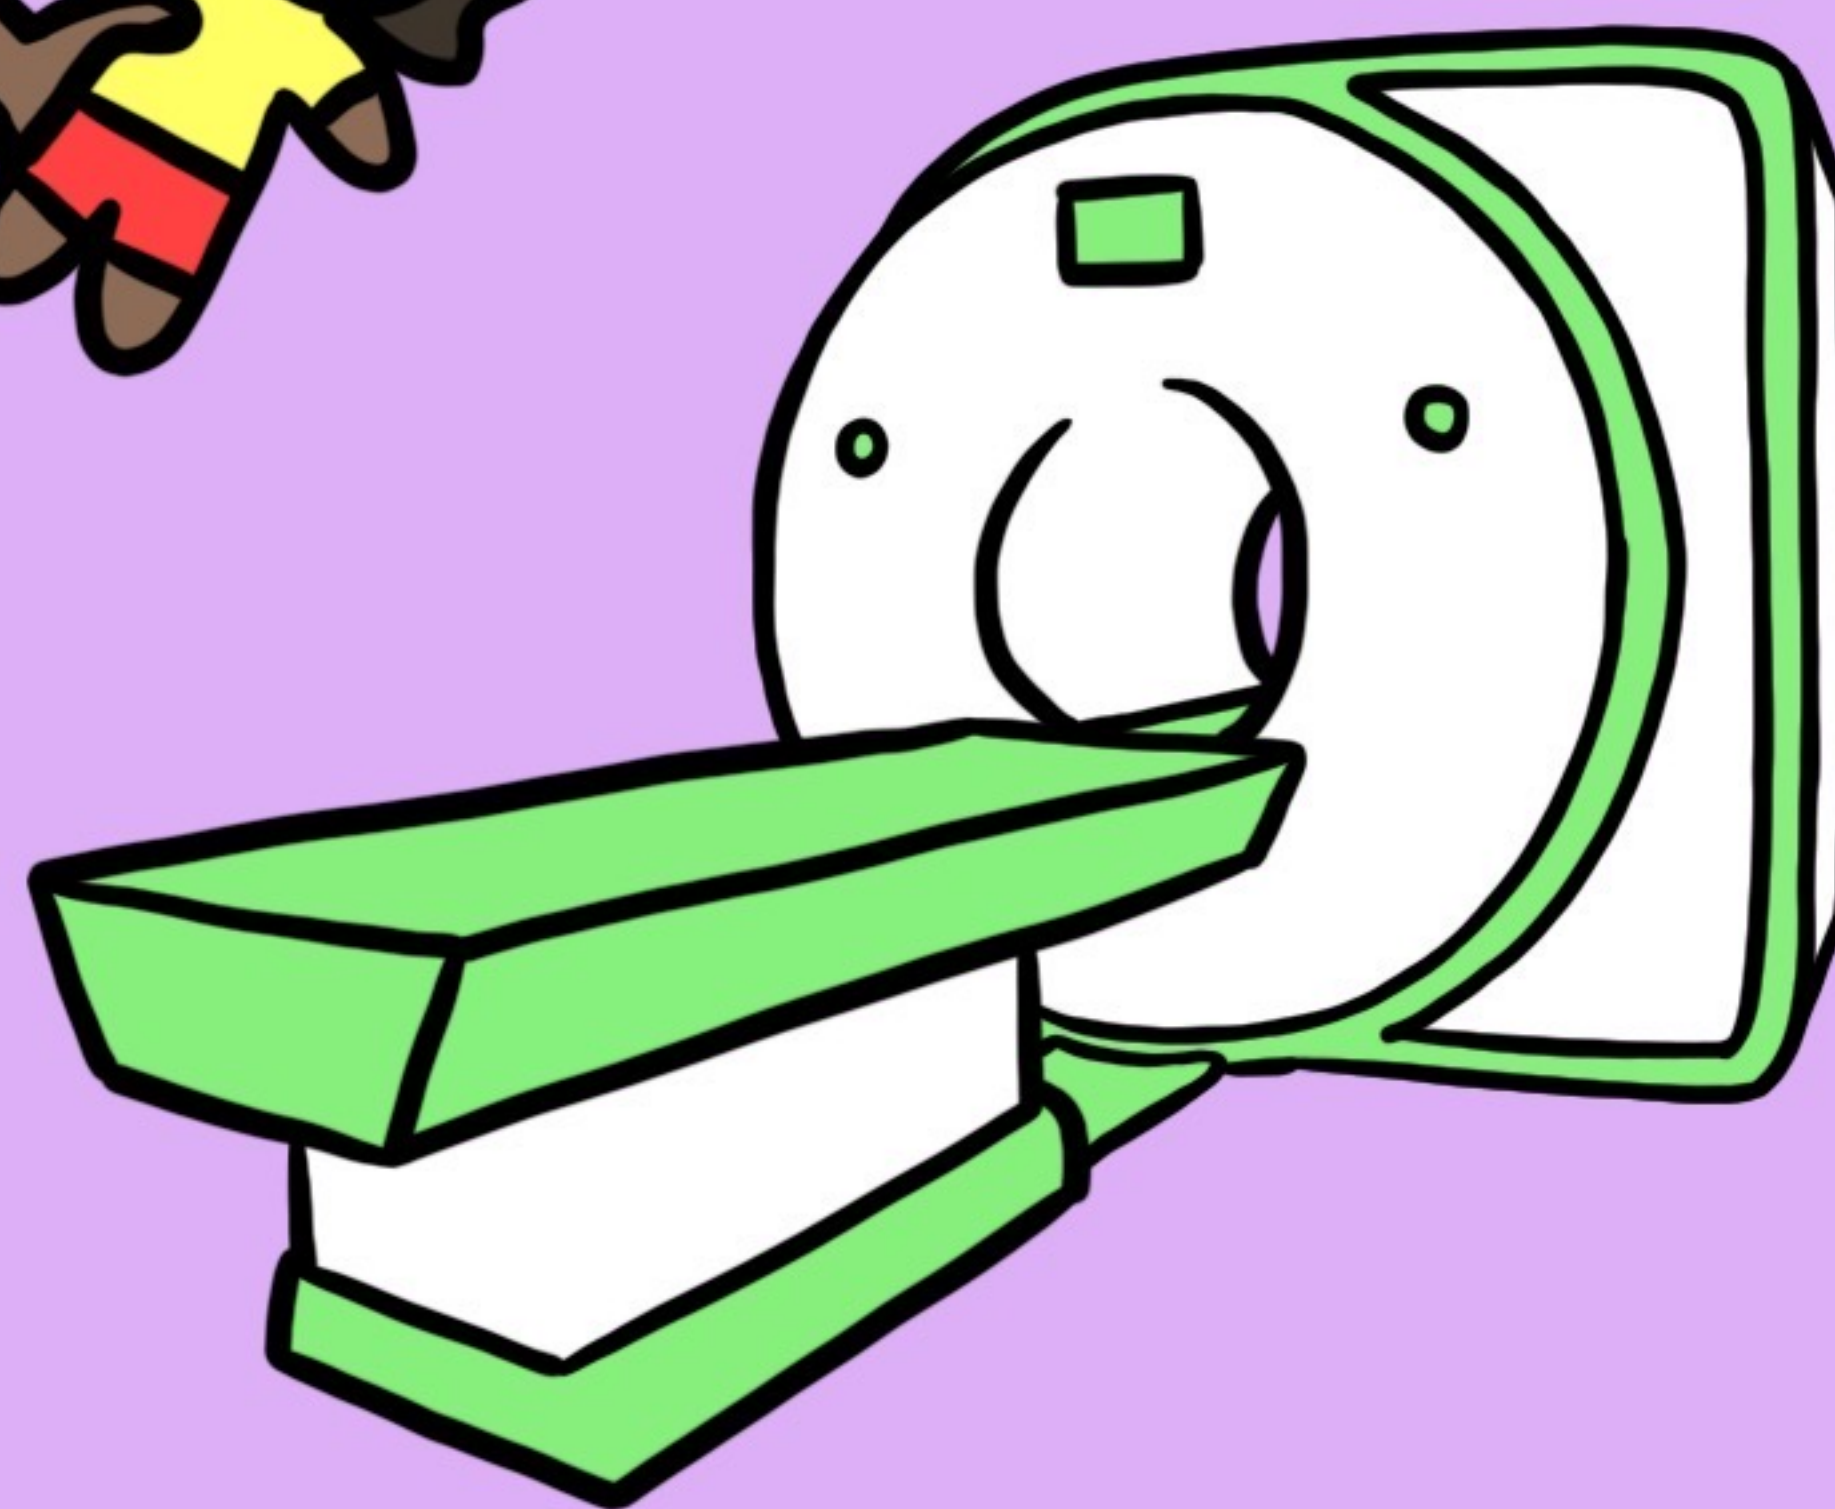

PET

CT

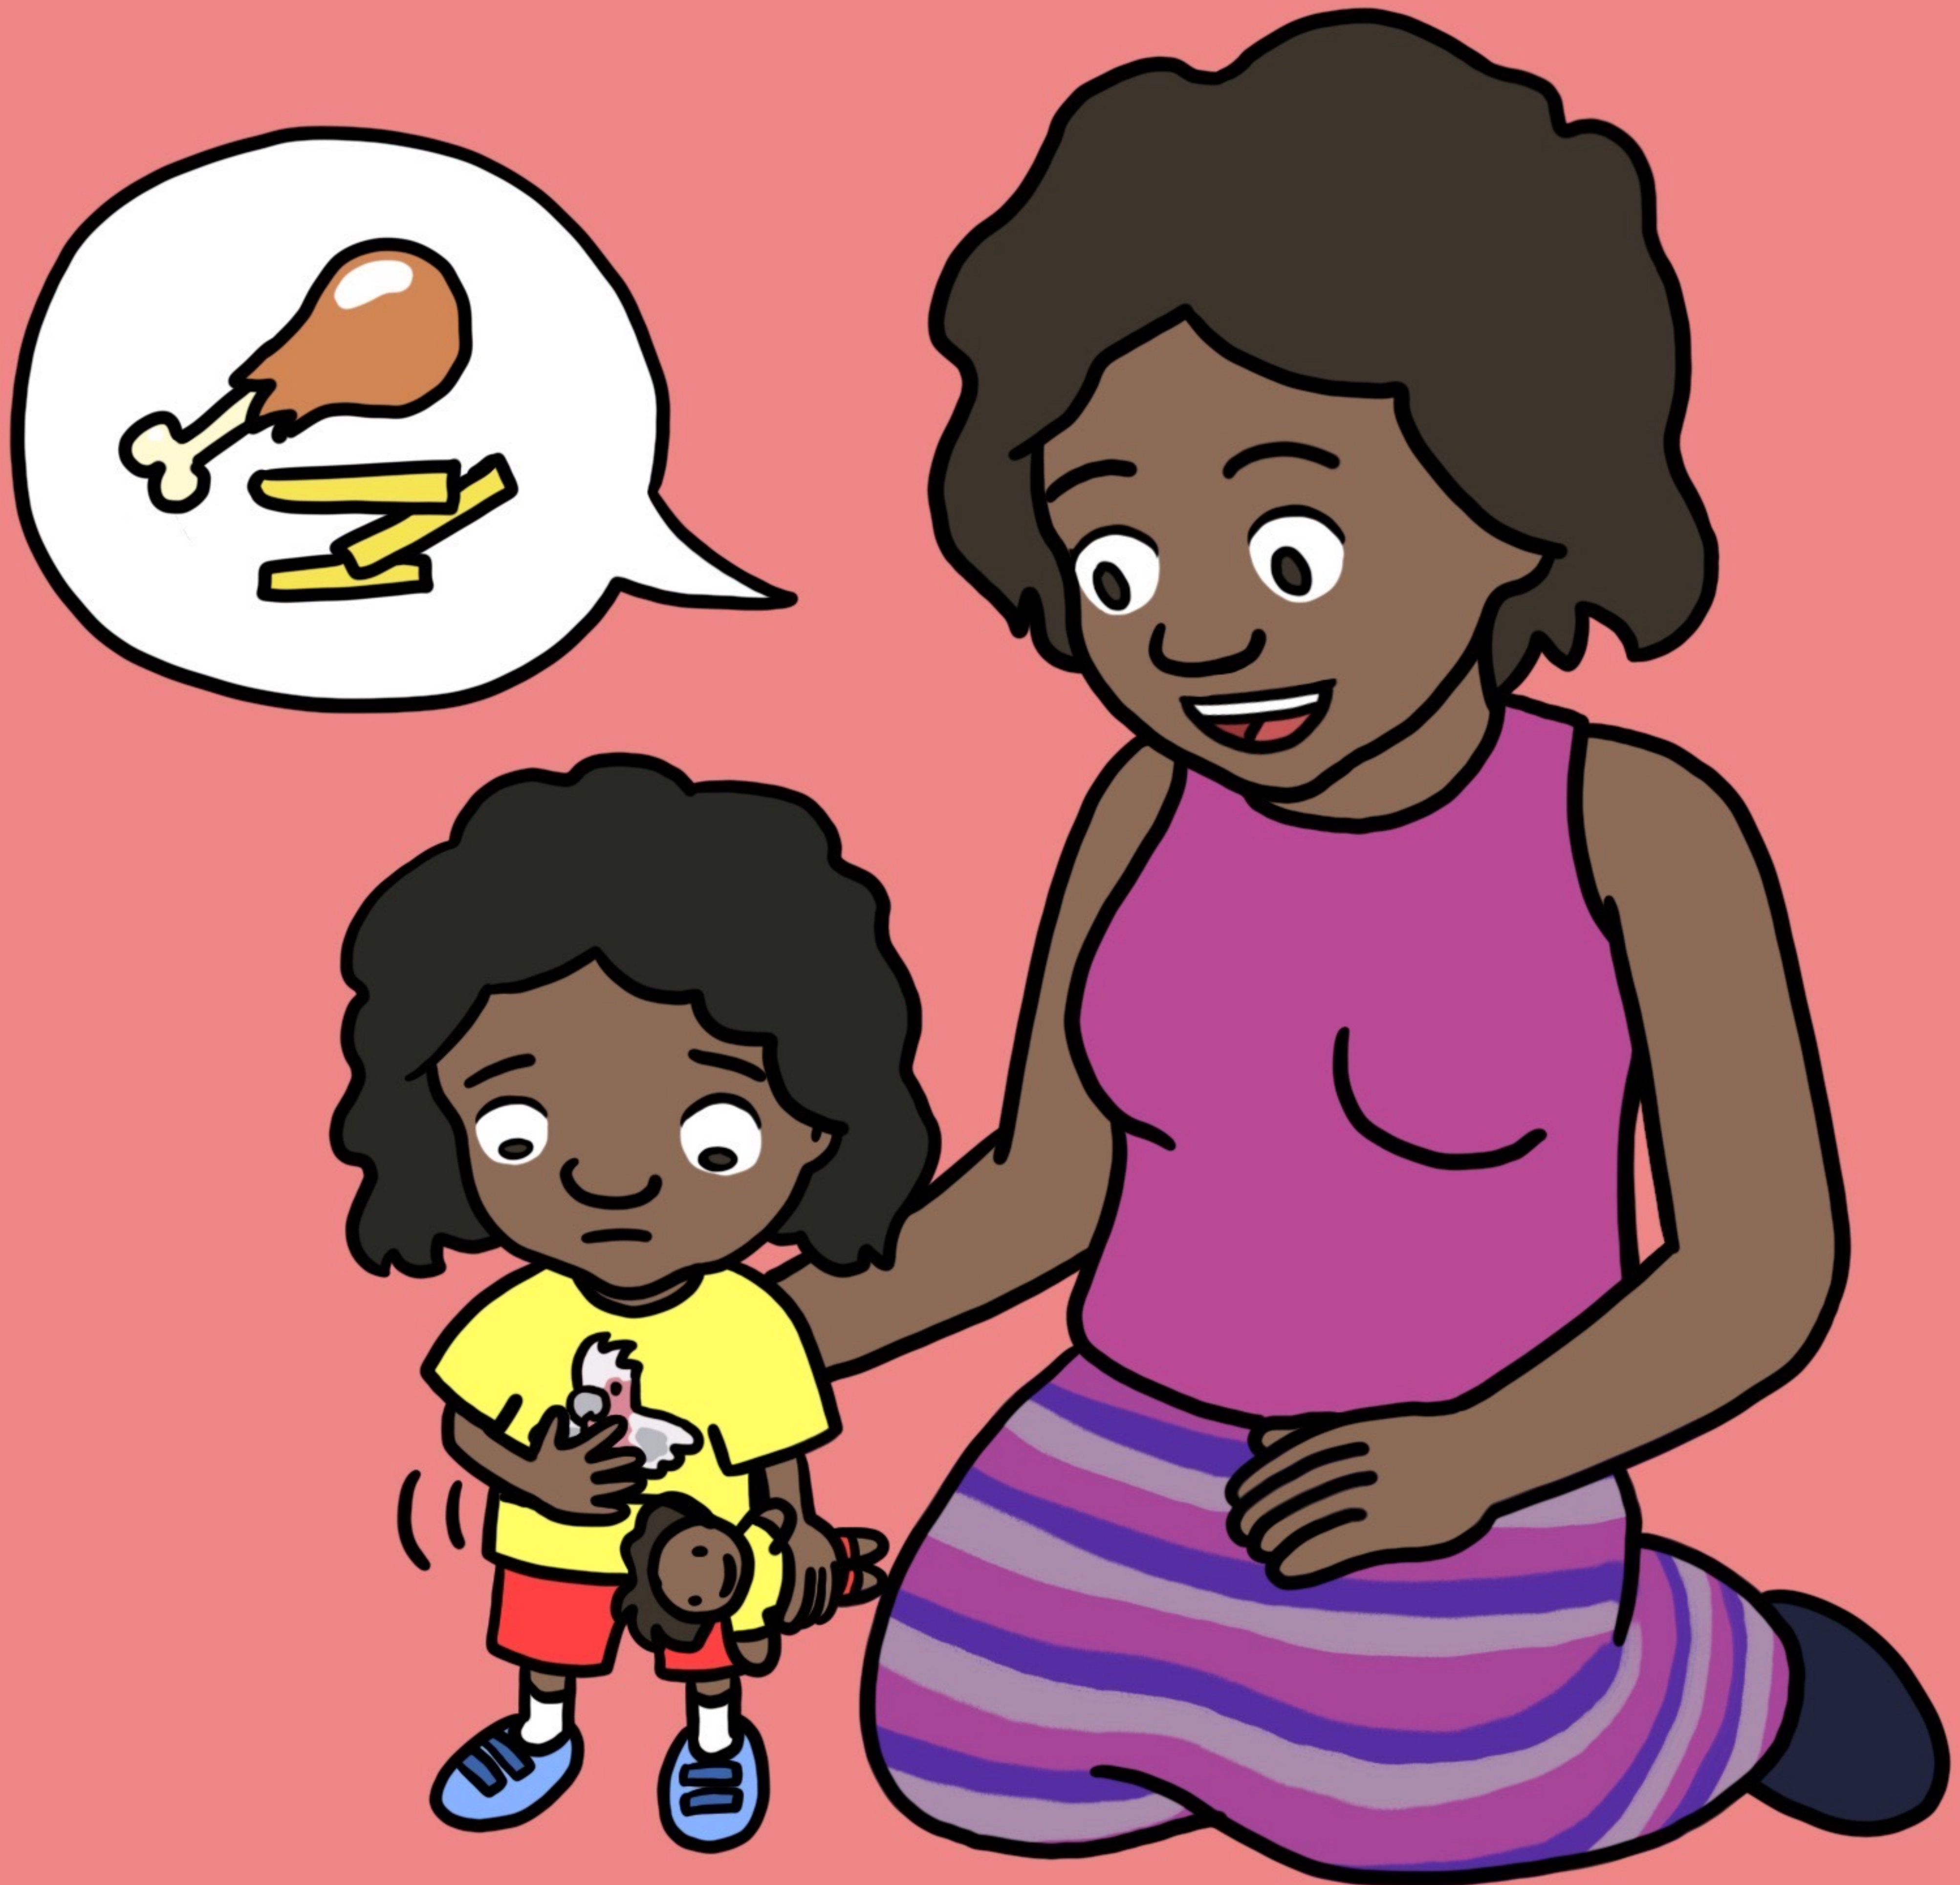

na MRI

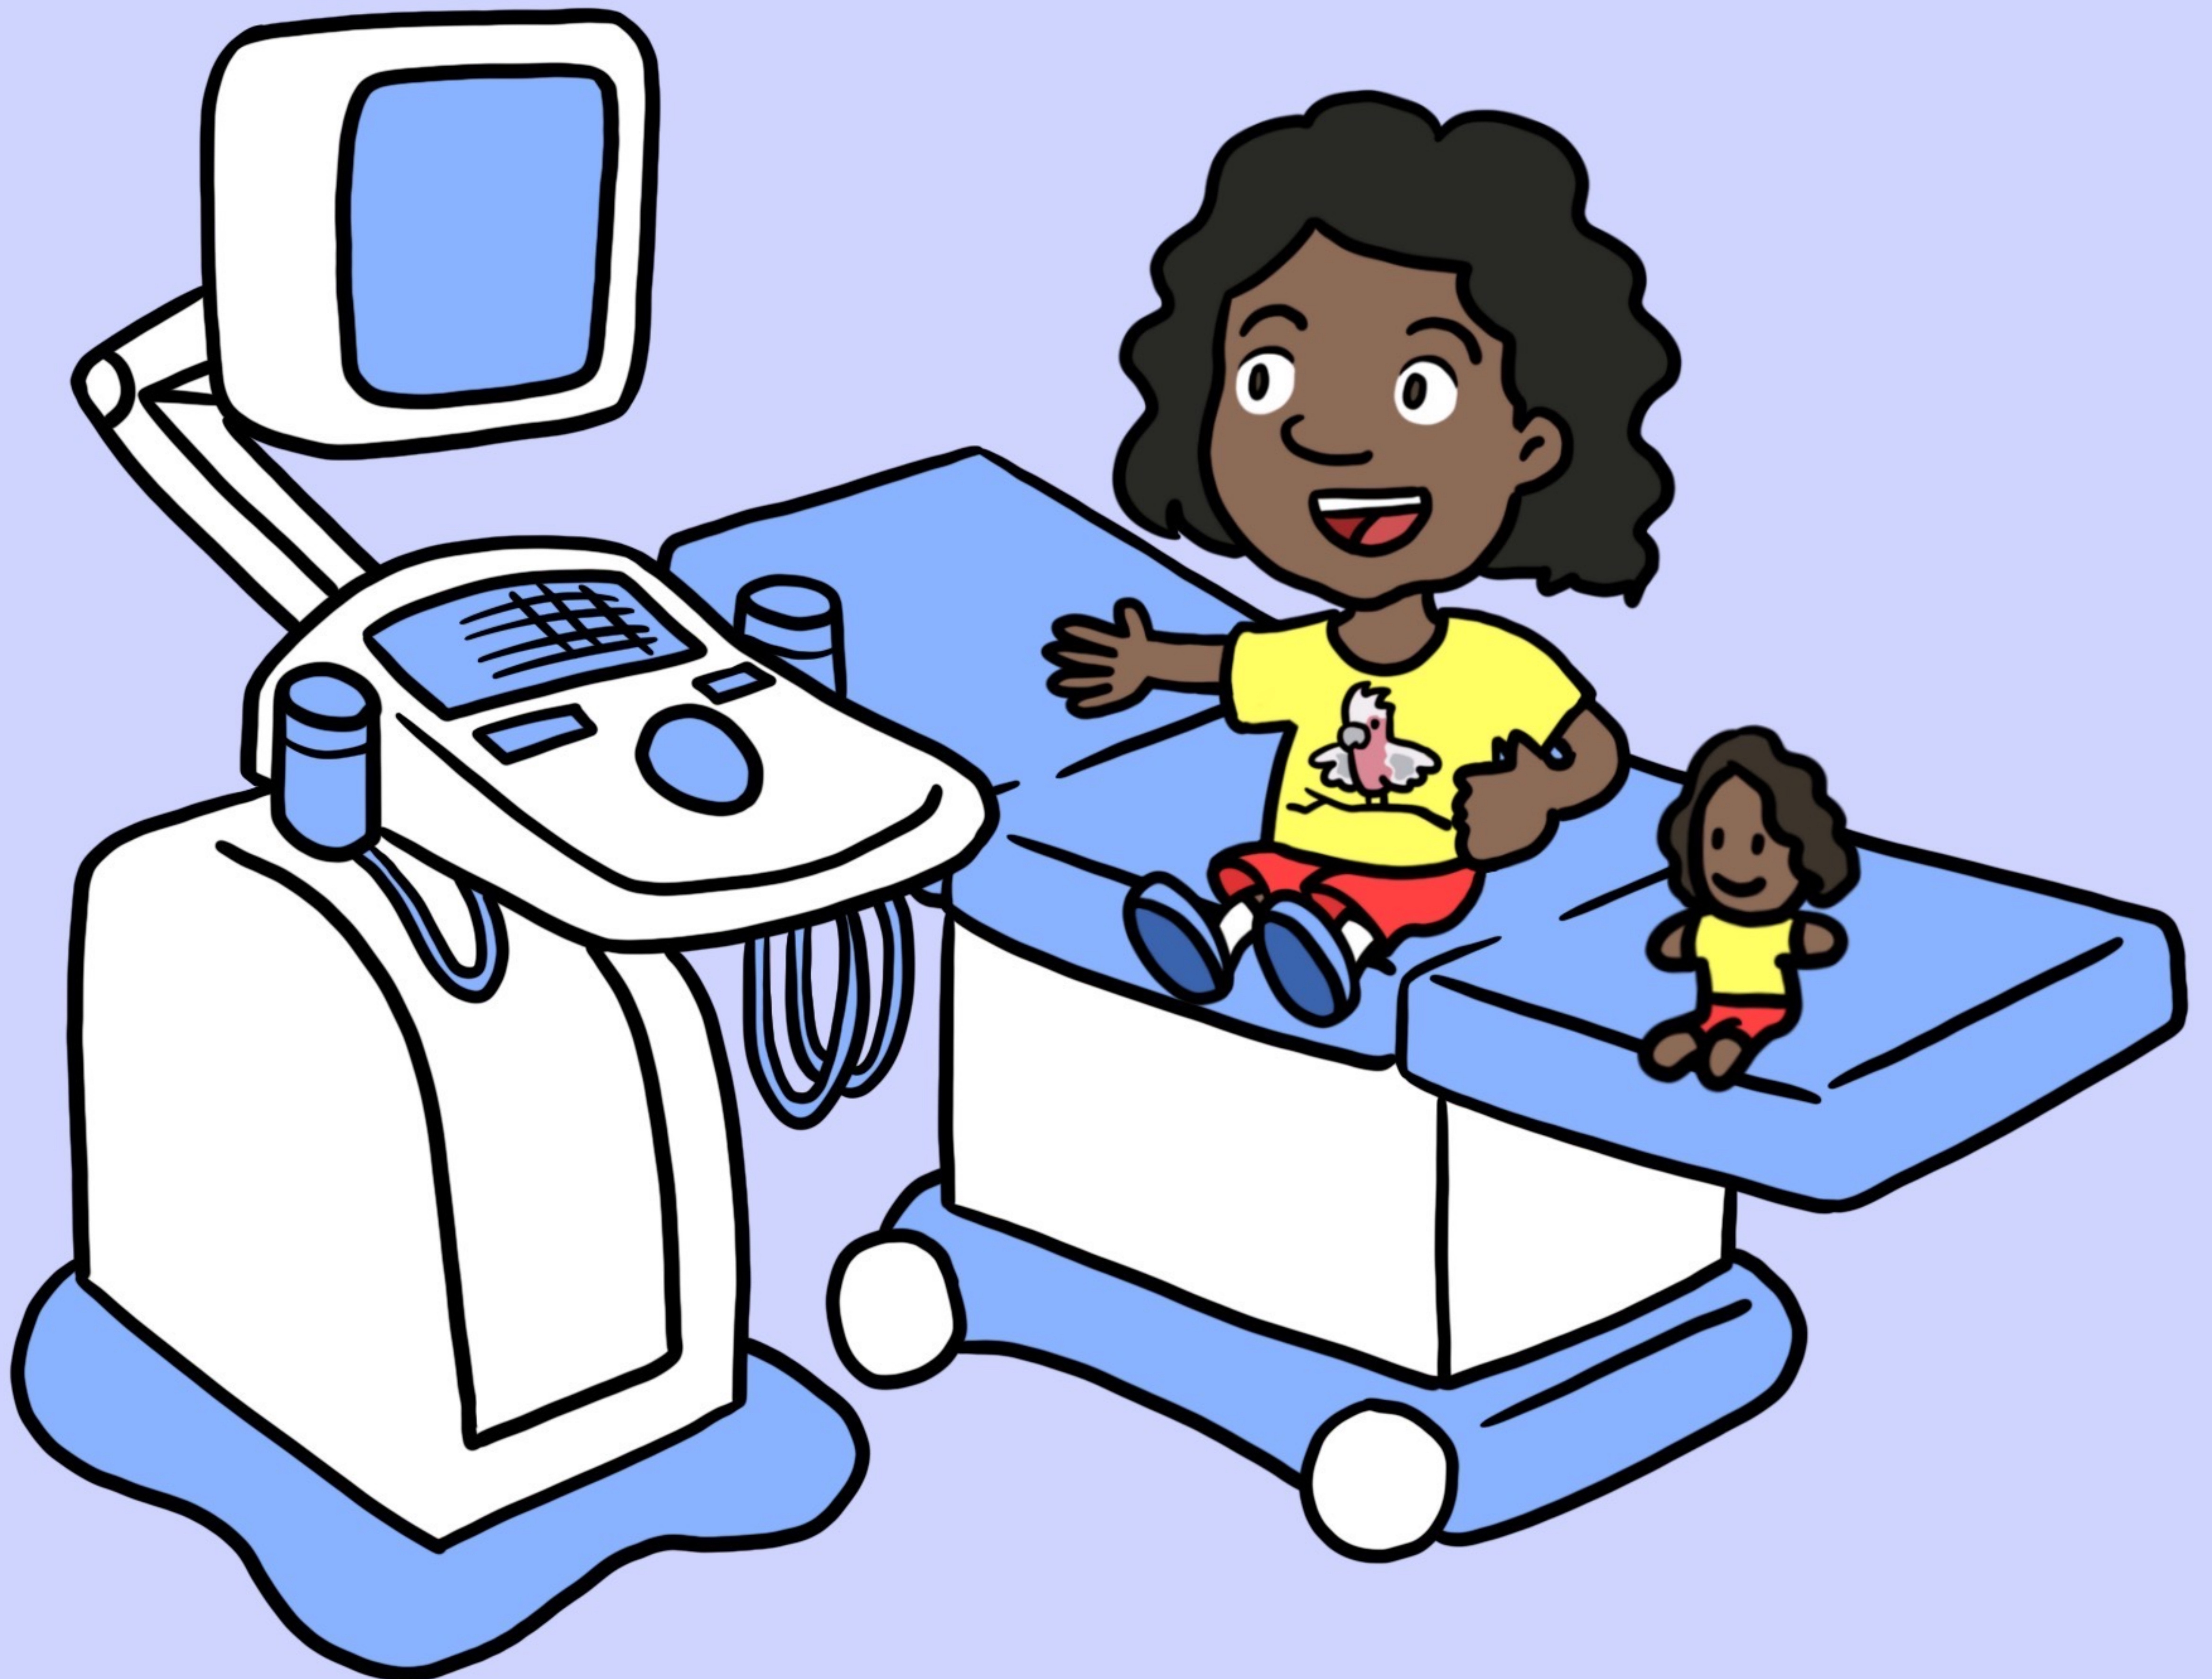

Scan ni njia ya kipekee na
salama inayotumika kupima
ndani ya mwili wangu.

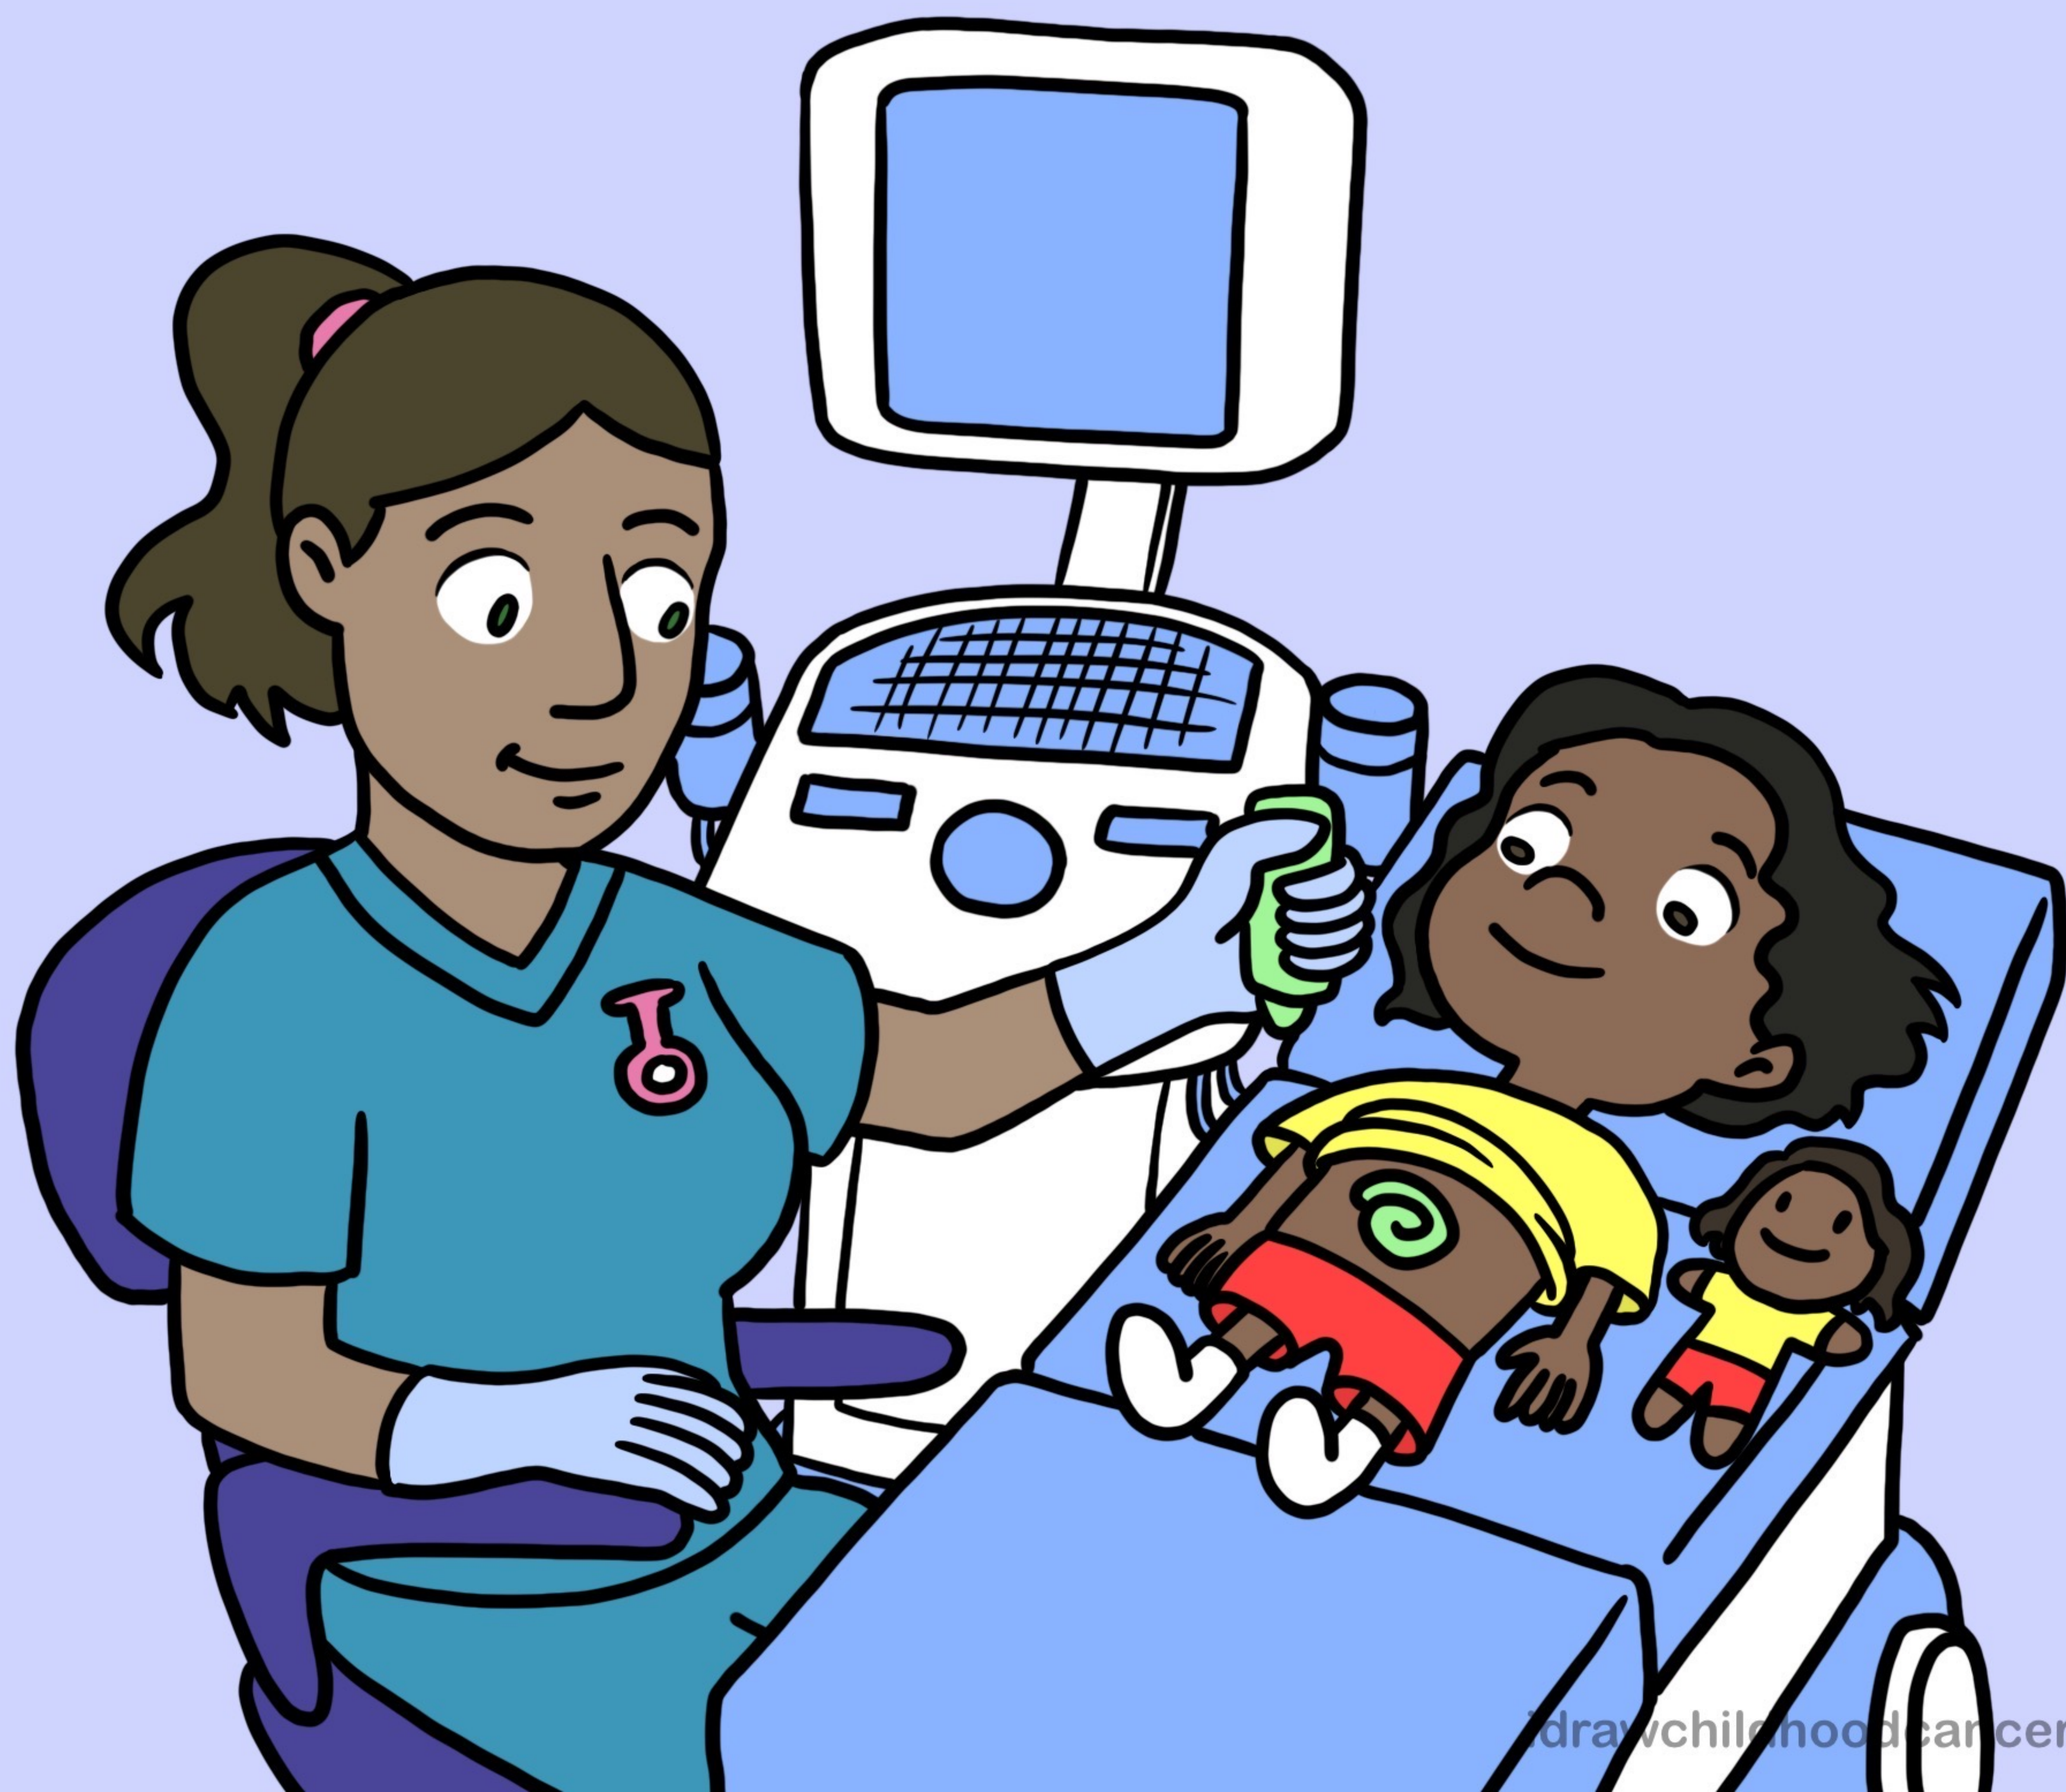

Kabla sijafanyiwa scans, sikuruhusiwa
Kula kitu chochote, Ila mama yangu
akaniambia ataninunulia chips kuku
baada ya kufanyiwa scans.

Scan ya kwanza ninayofanyiwa inaitwa
ultrasound, ipo kama robot.

Anae nifanyia scan anaweka gel kwenye
tumbo langu ili machine iweze ona
kilichoko ndani ya mwili wangu.

Machine inatoa sauti ambayo inapenya
mwilini mwangu na kutengeneza picha.

Namna ninavyofanyiwa ultrasound ni
salama na wanaonifanyia wananijali.

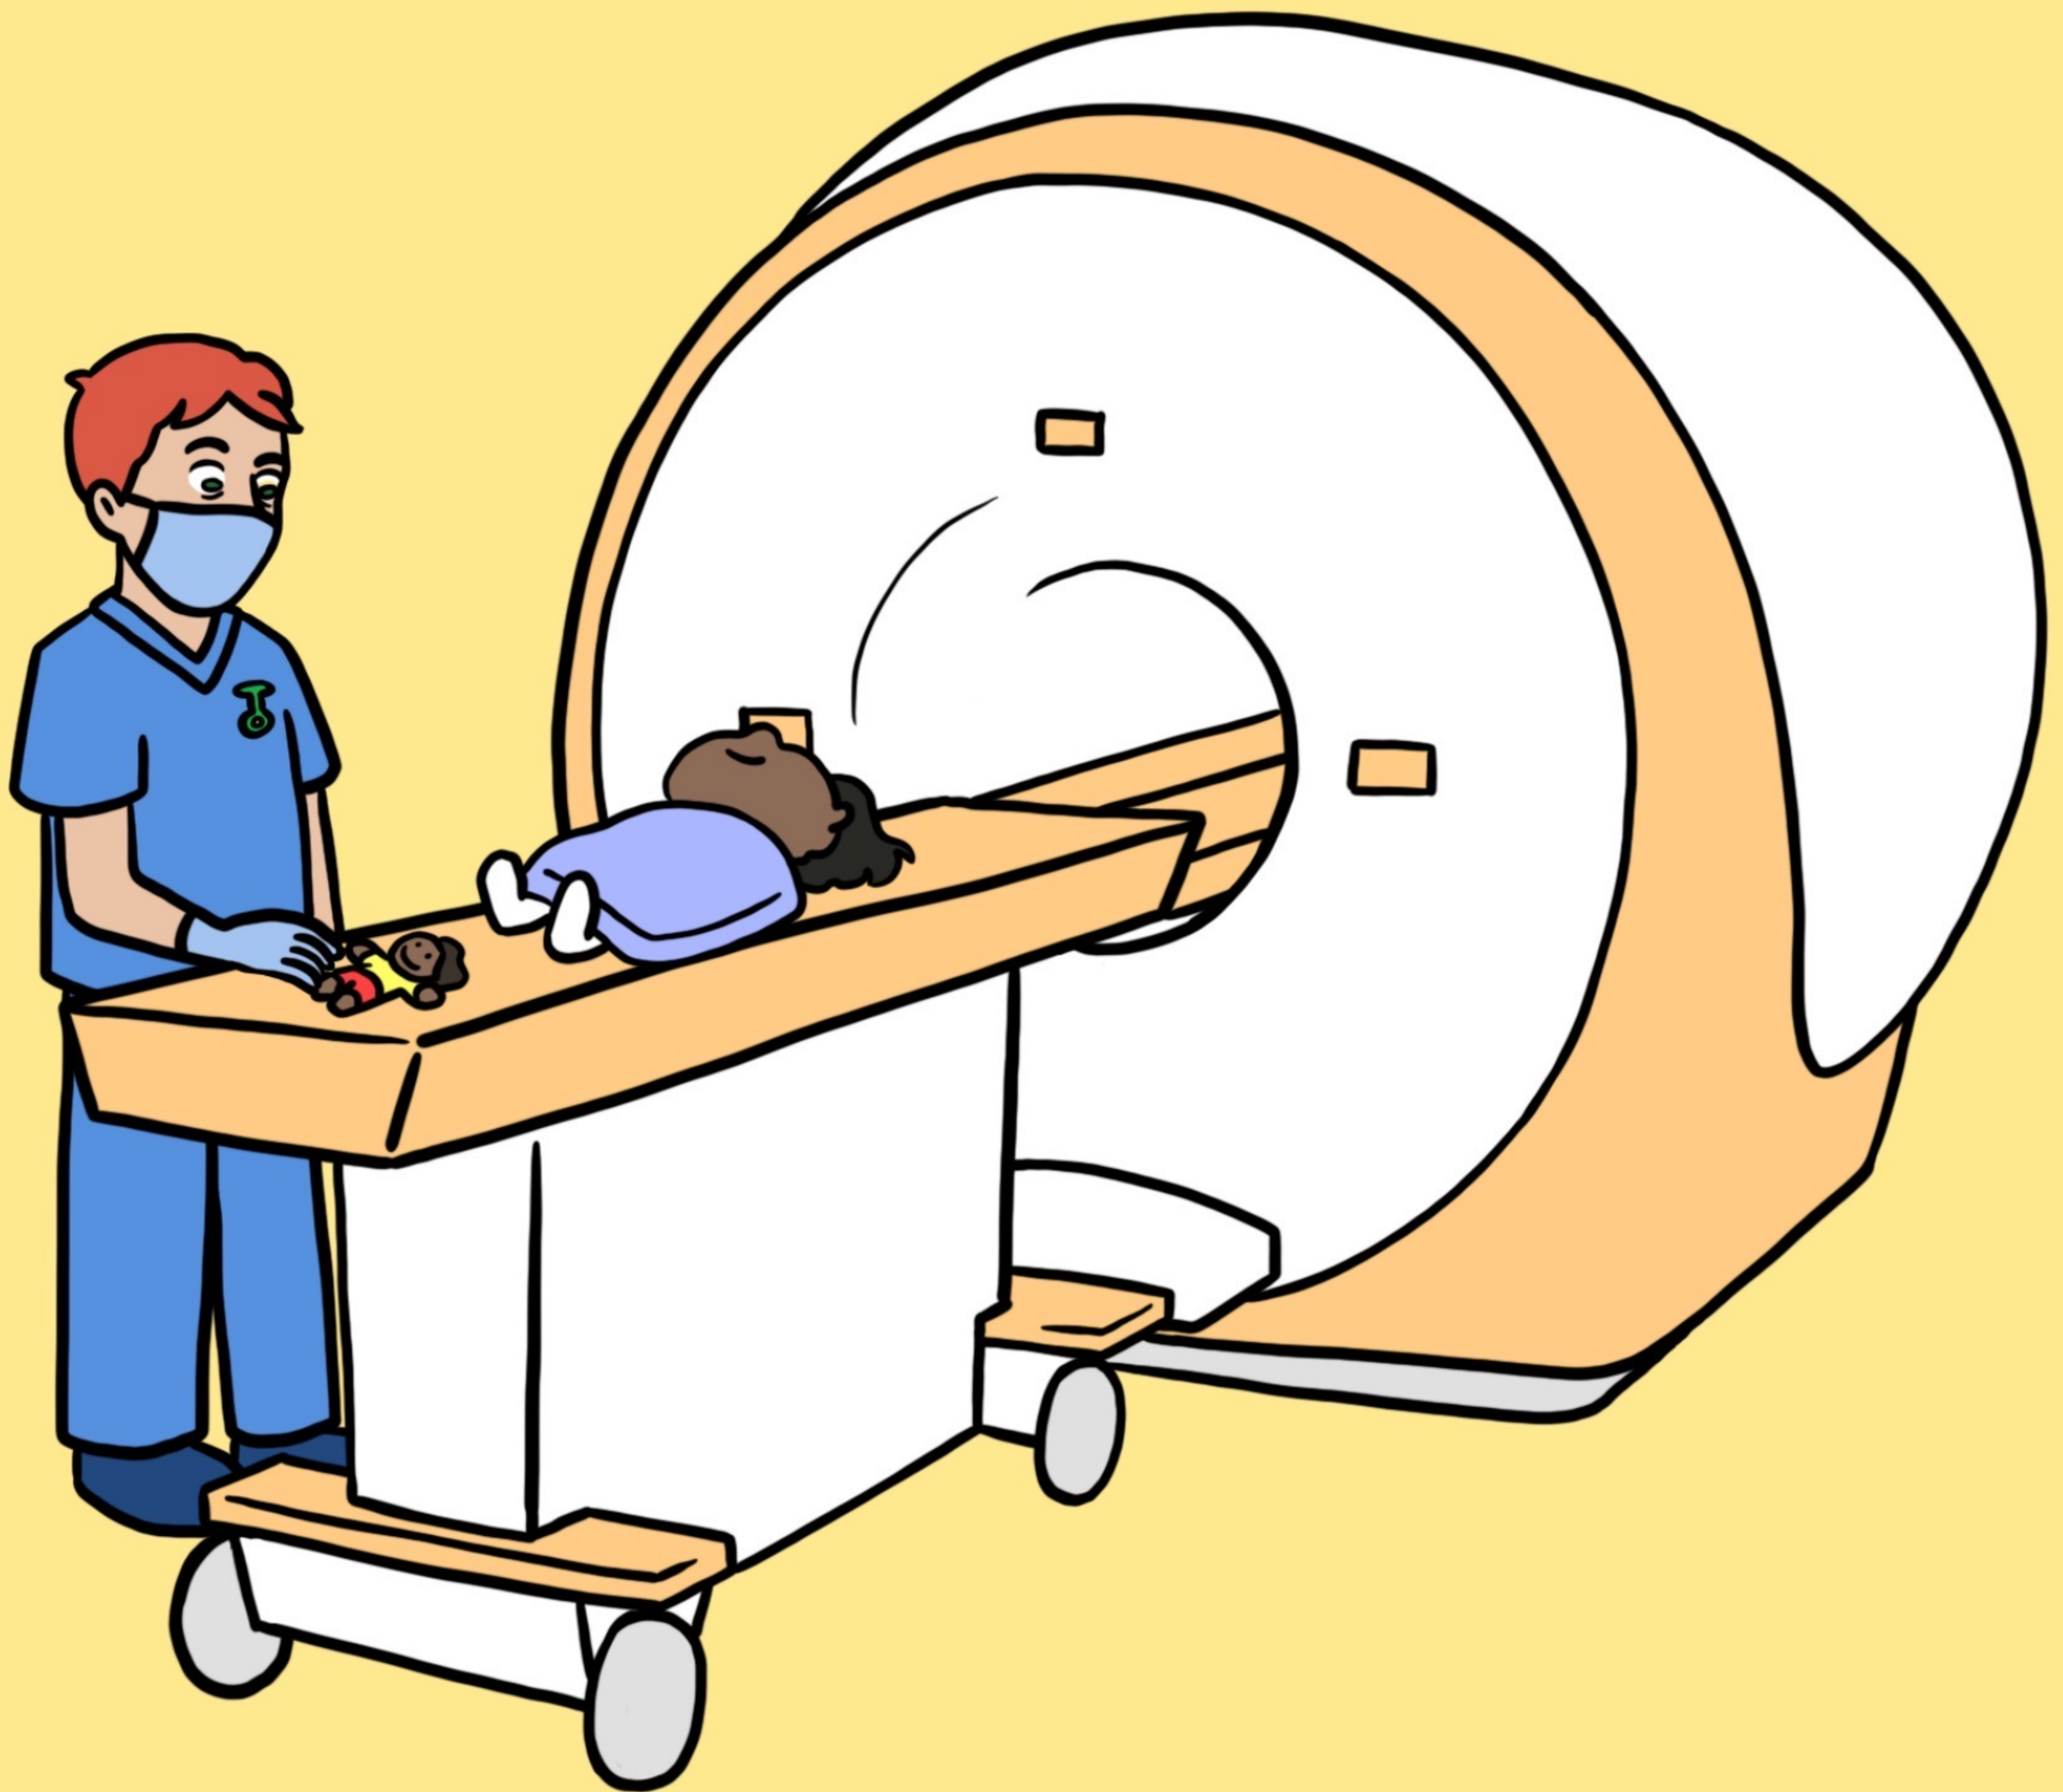

Scan ya pili inaitwa PET..iko
kama andazi la donut.

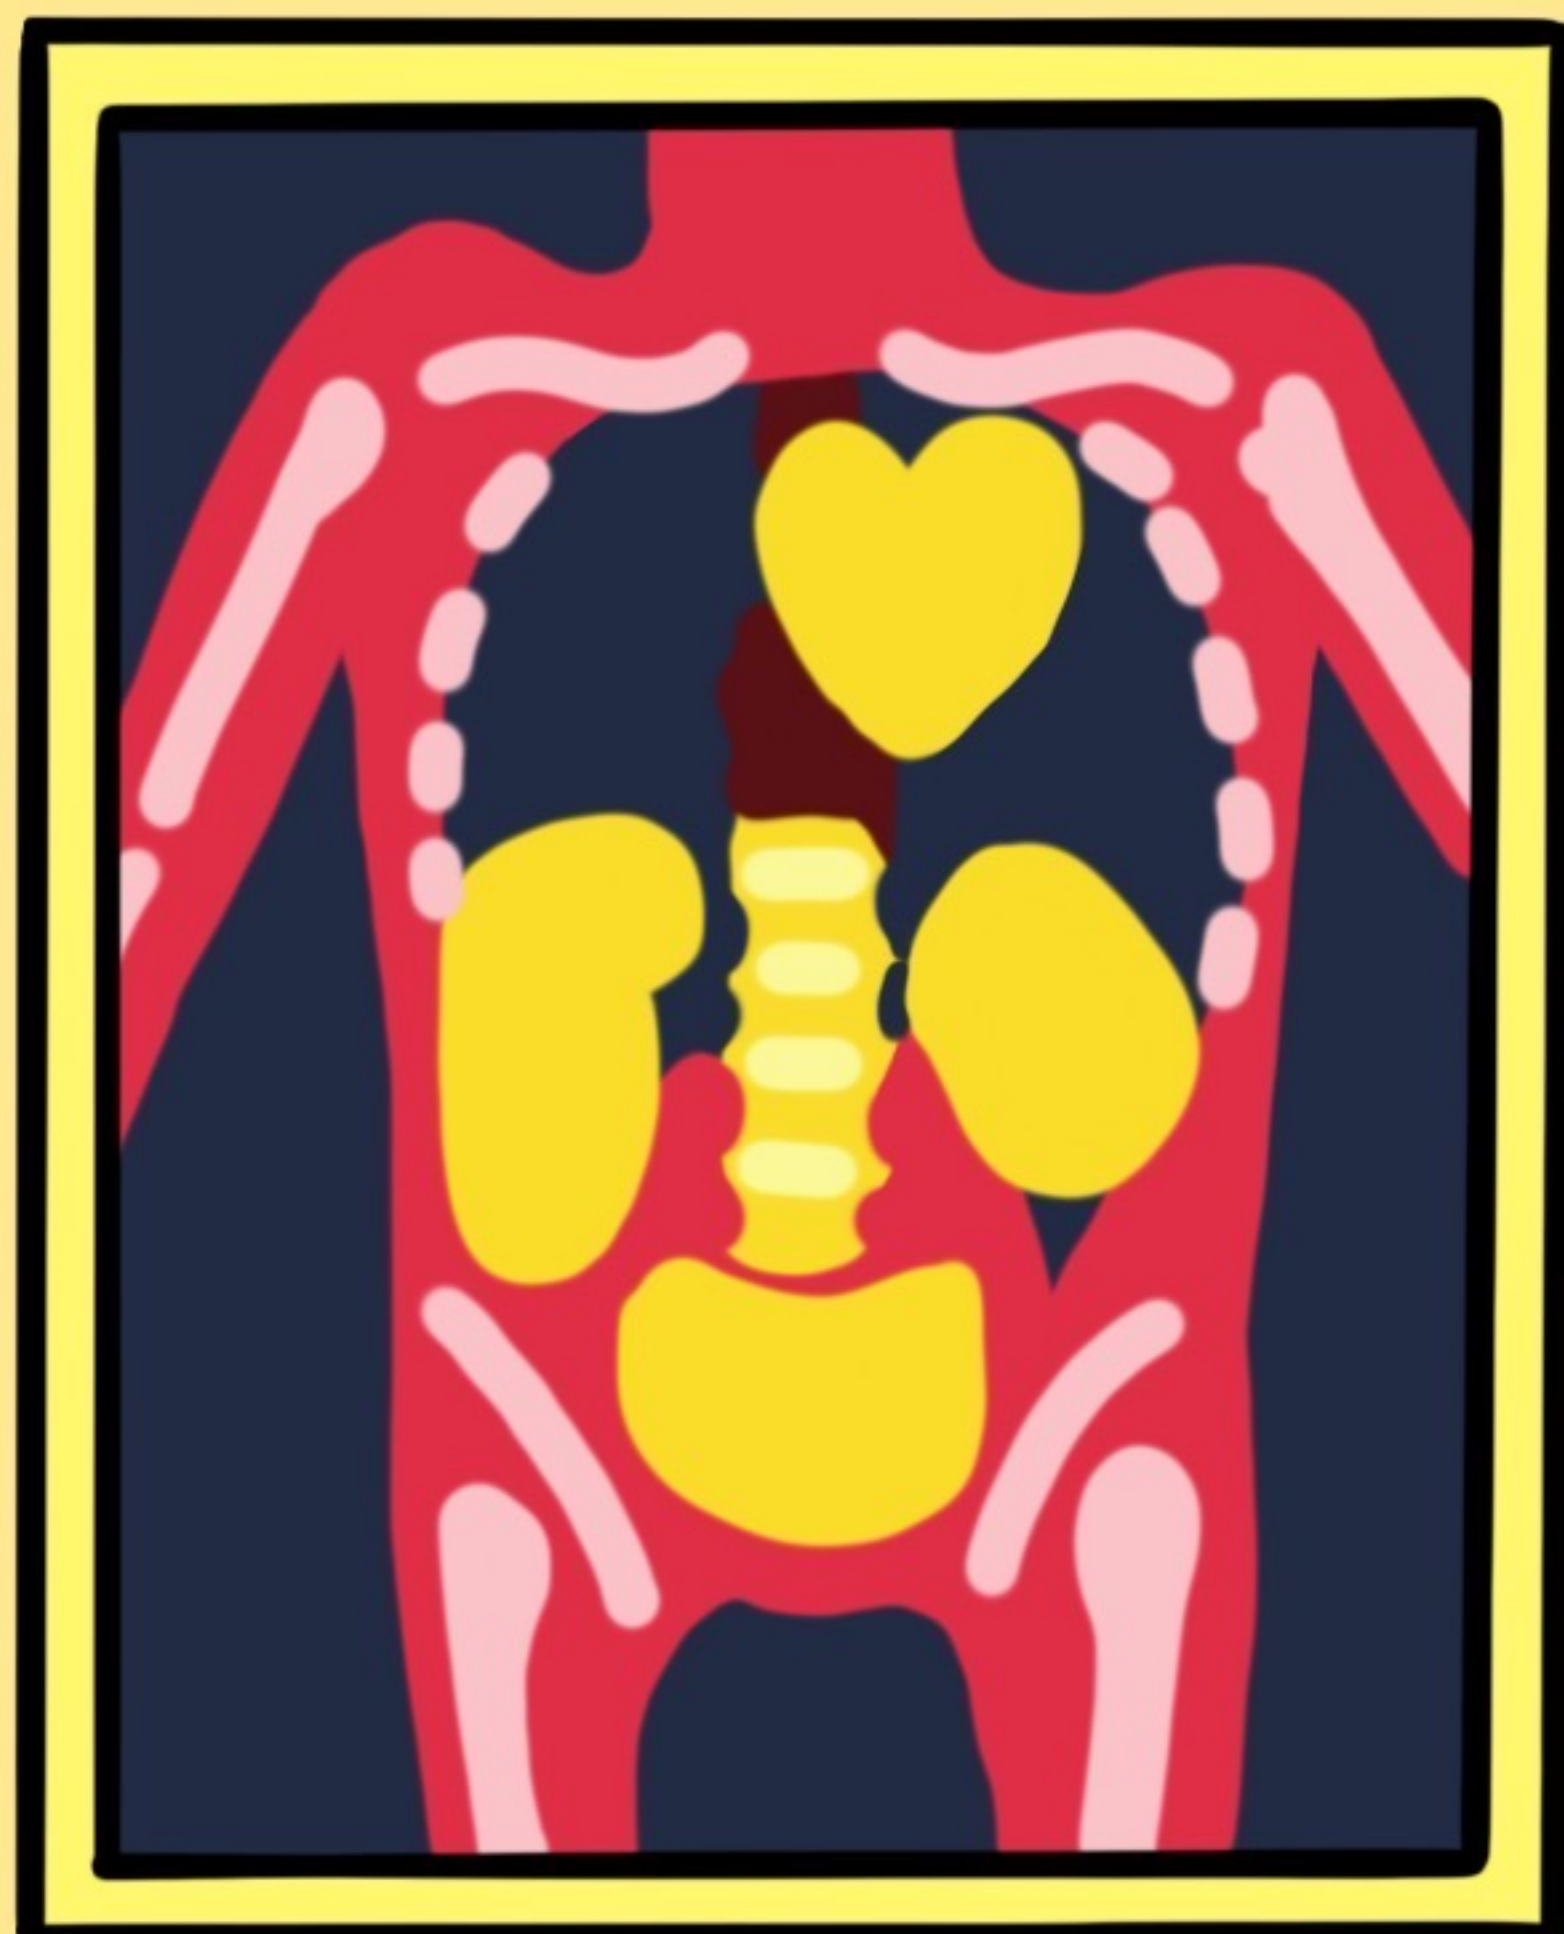

Kwenye kufanyiwa PET scan
anaenifanyia anaweka sukari
maalum kwenye tube yangu na
baada ya hapo nasubiri kwa
muda mchache.

Hii tube inatumika kunifanya nilale,
inanisaidia kupata usingizi mzuri.

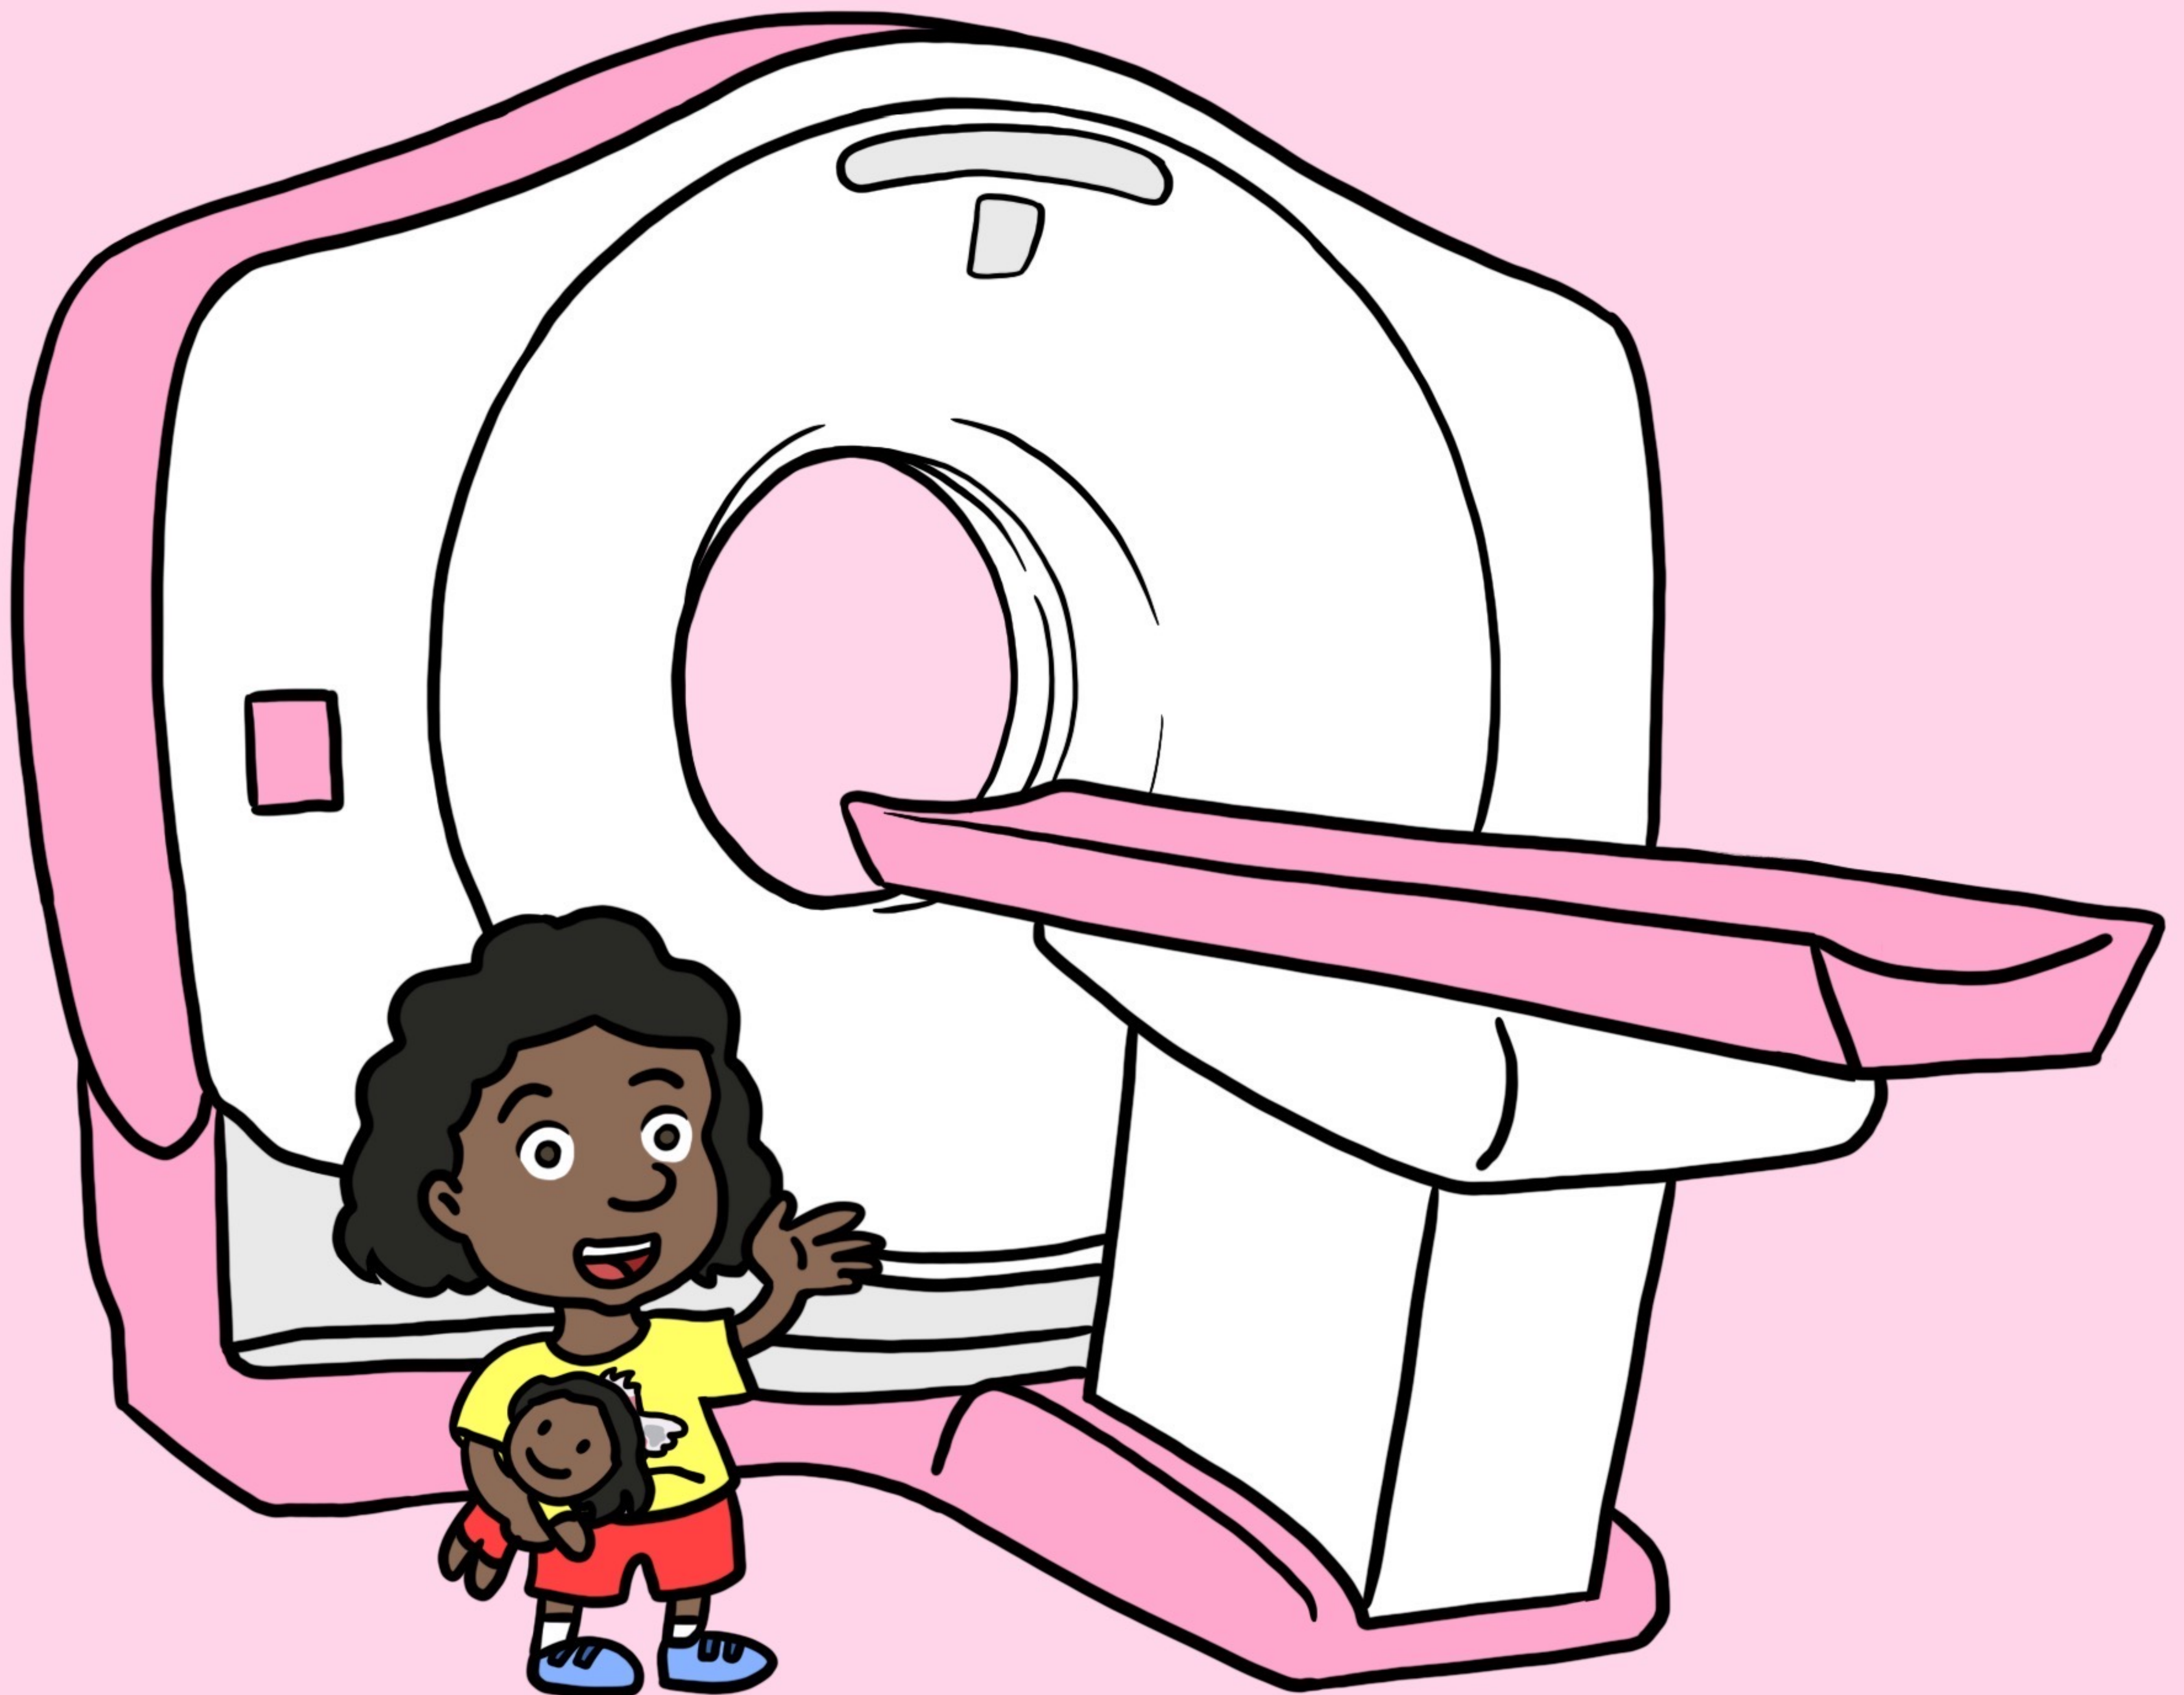

Scan ya PET huona sukari
maalum iliyopo tumboni
mwangu na hutengenez picha.

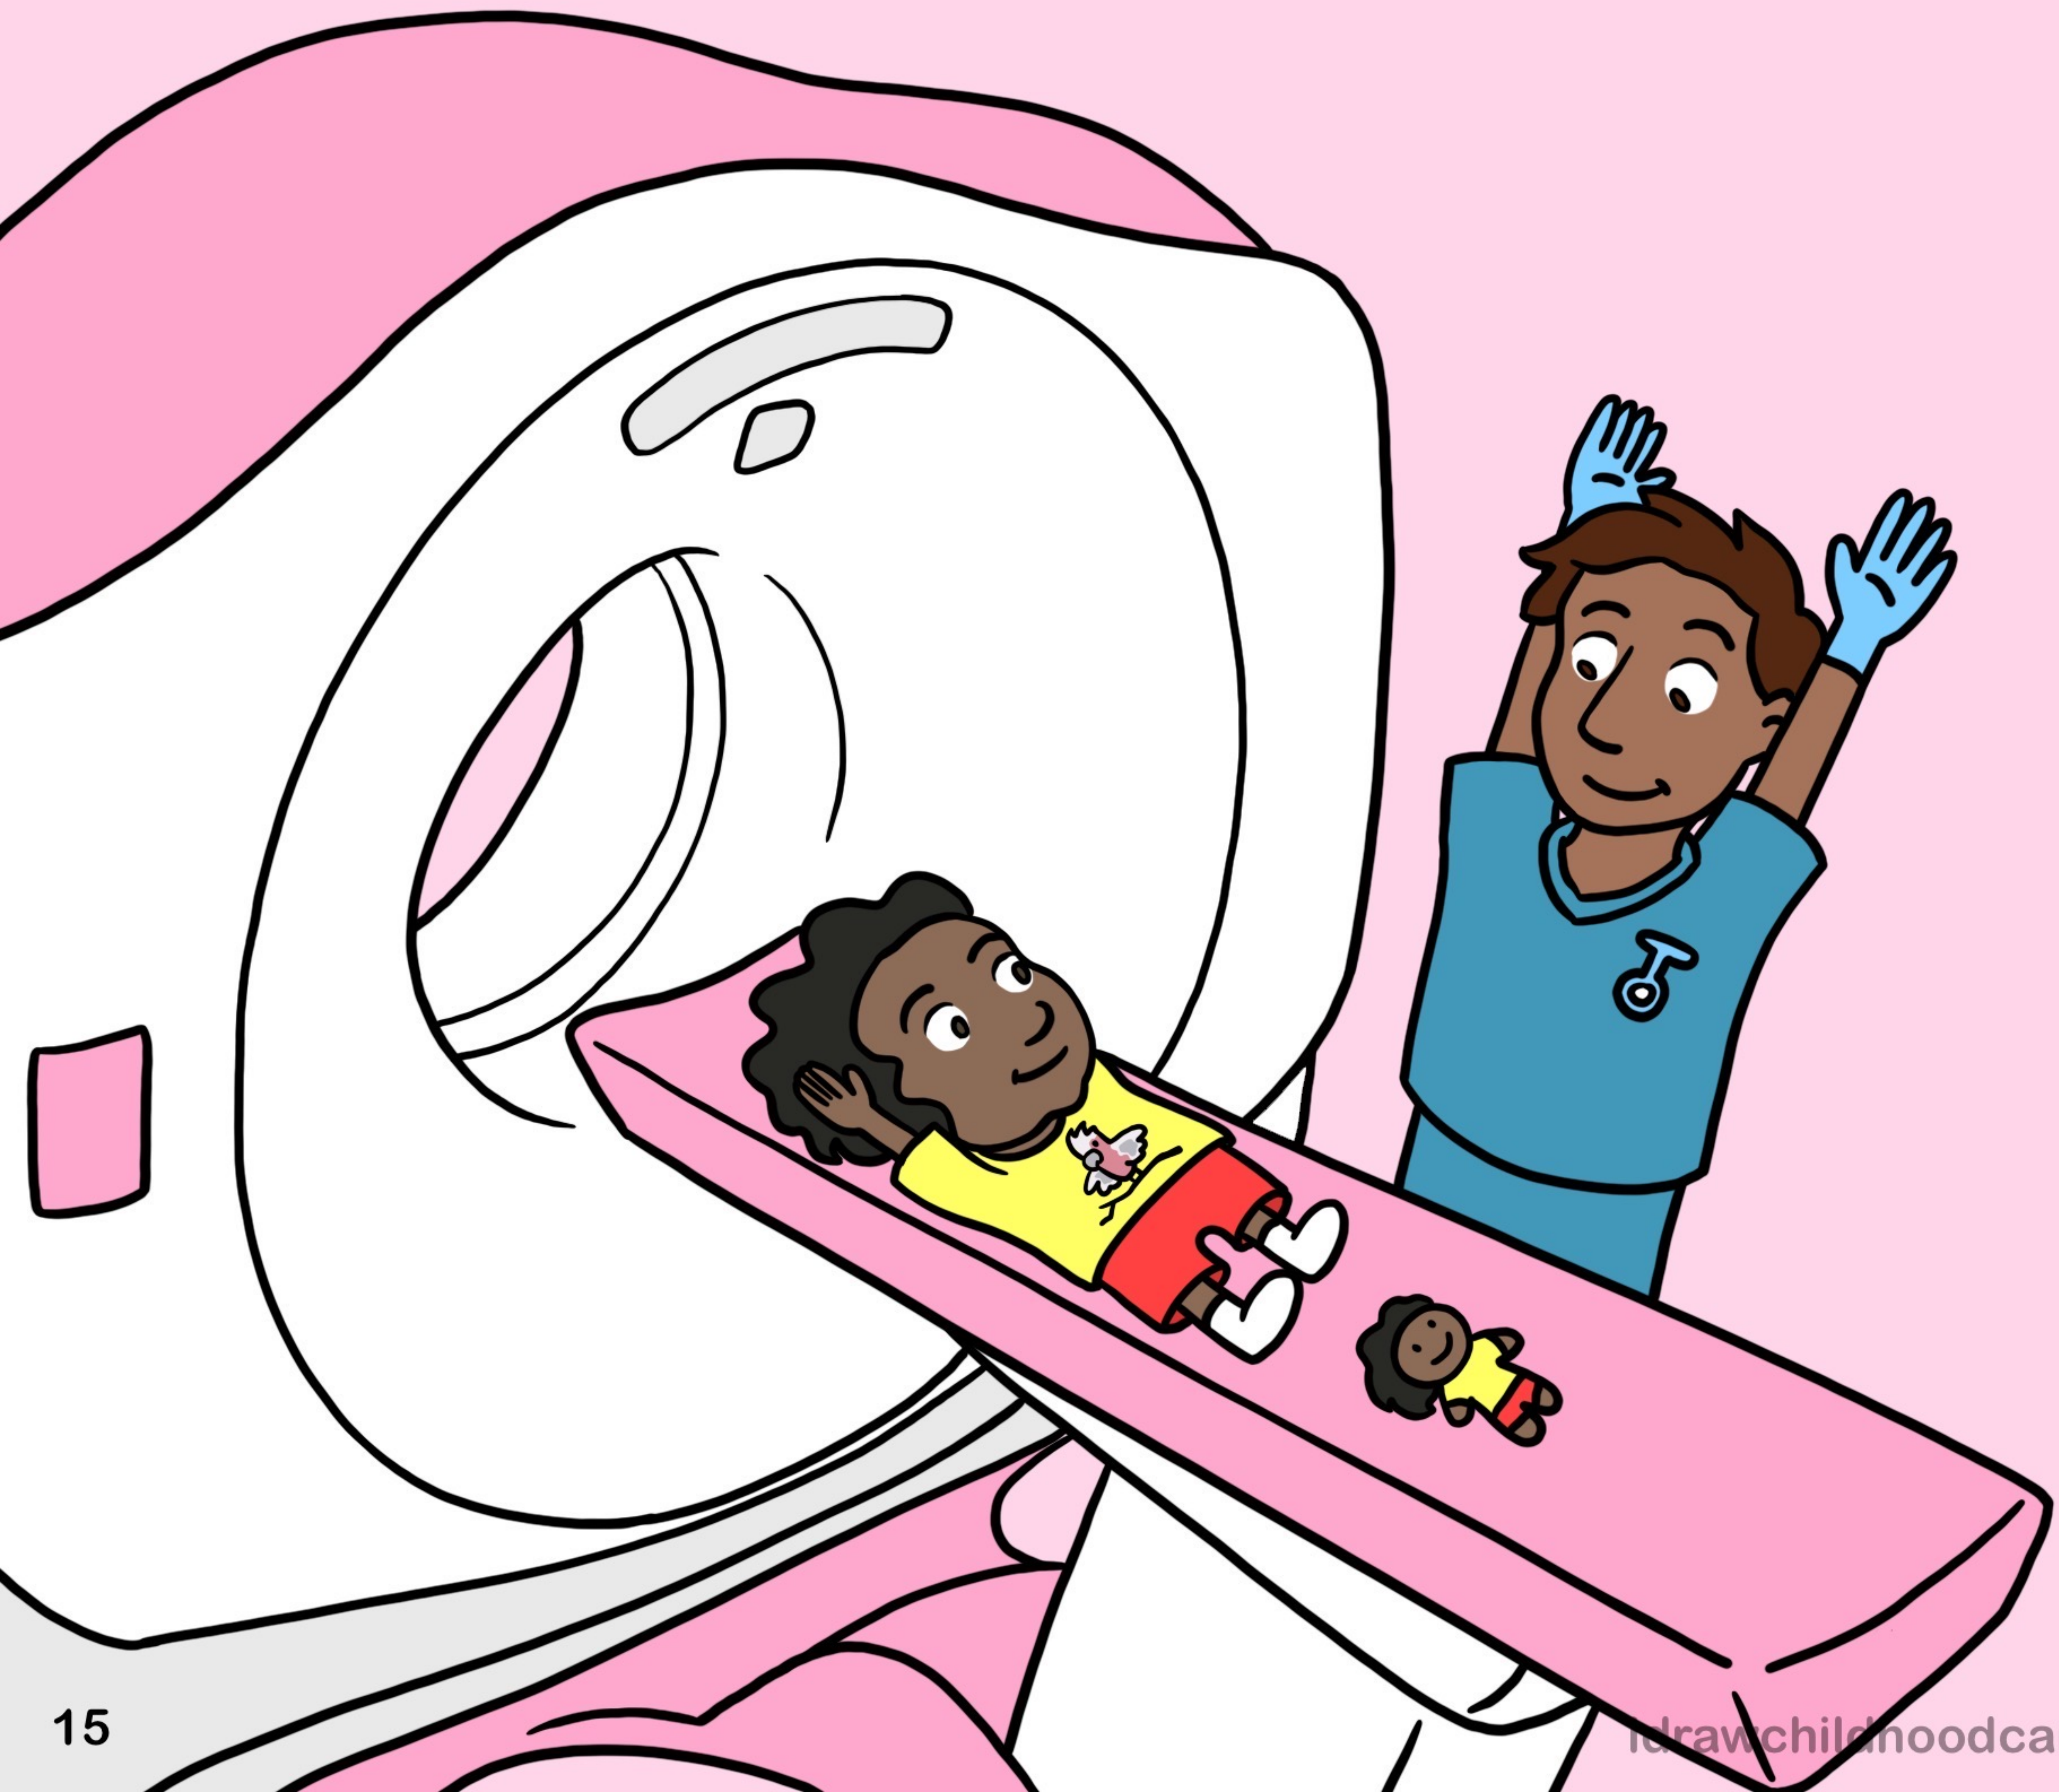

Scan ya PET ni salama,na
wanaonifanyia wananifanyia
kwa umakini mkubwa.

Scan ya tatu inaitwa CT scan.
Na yenyewe ina tundu kama andazi la donut.

Anaenifanyia scan huniomba kutulia pindi
anaponifanyia scan,na CT scan ina toa sauti
ya "Wrrrrr"ninapokuwa nafanyiwa.

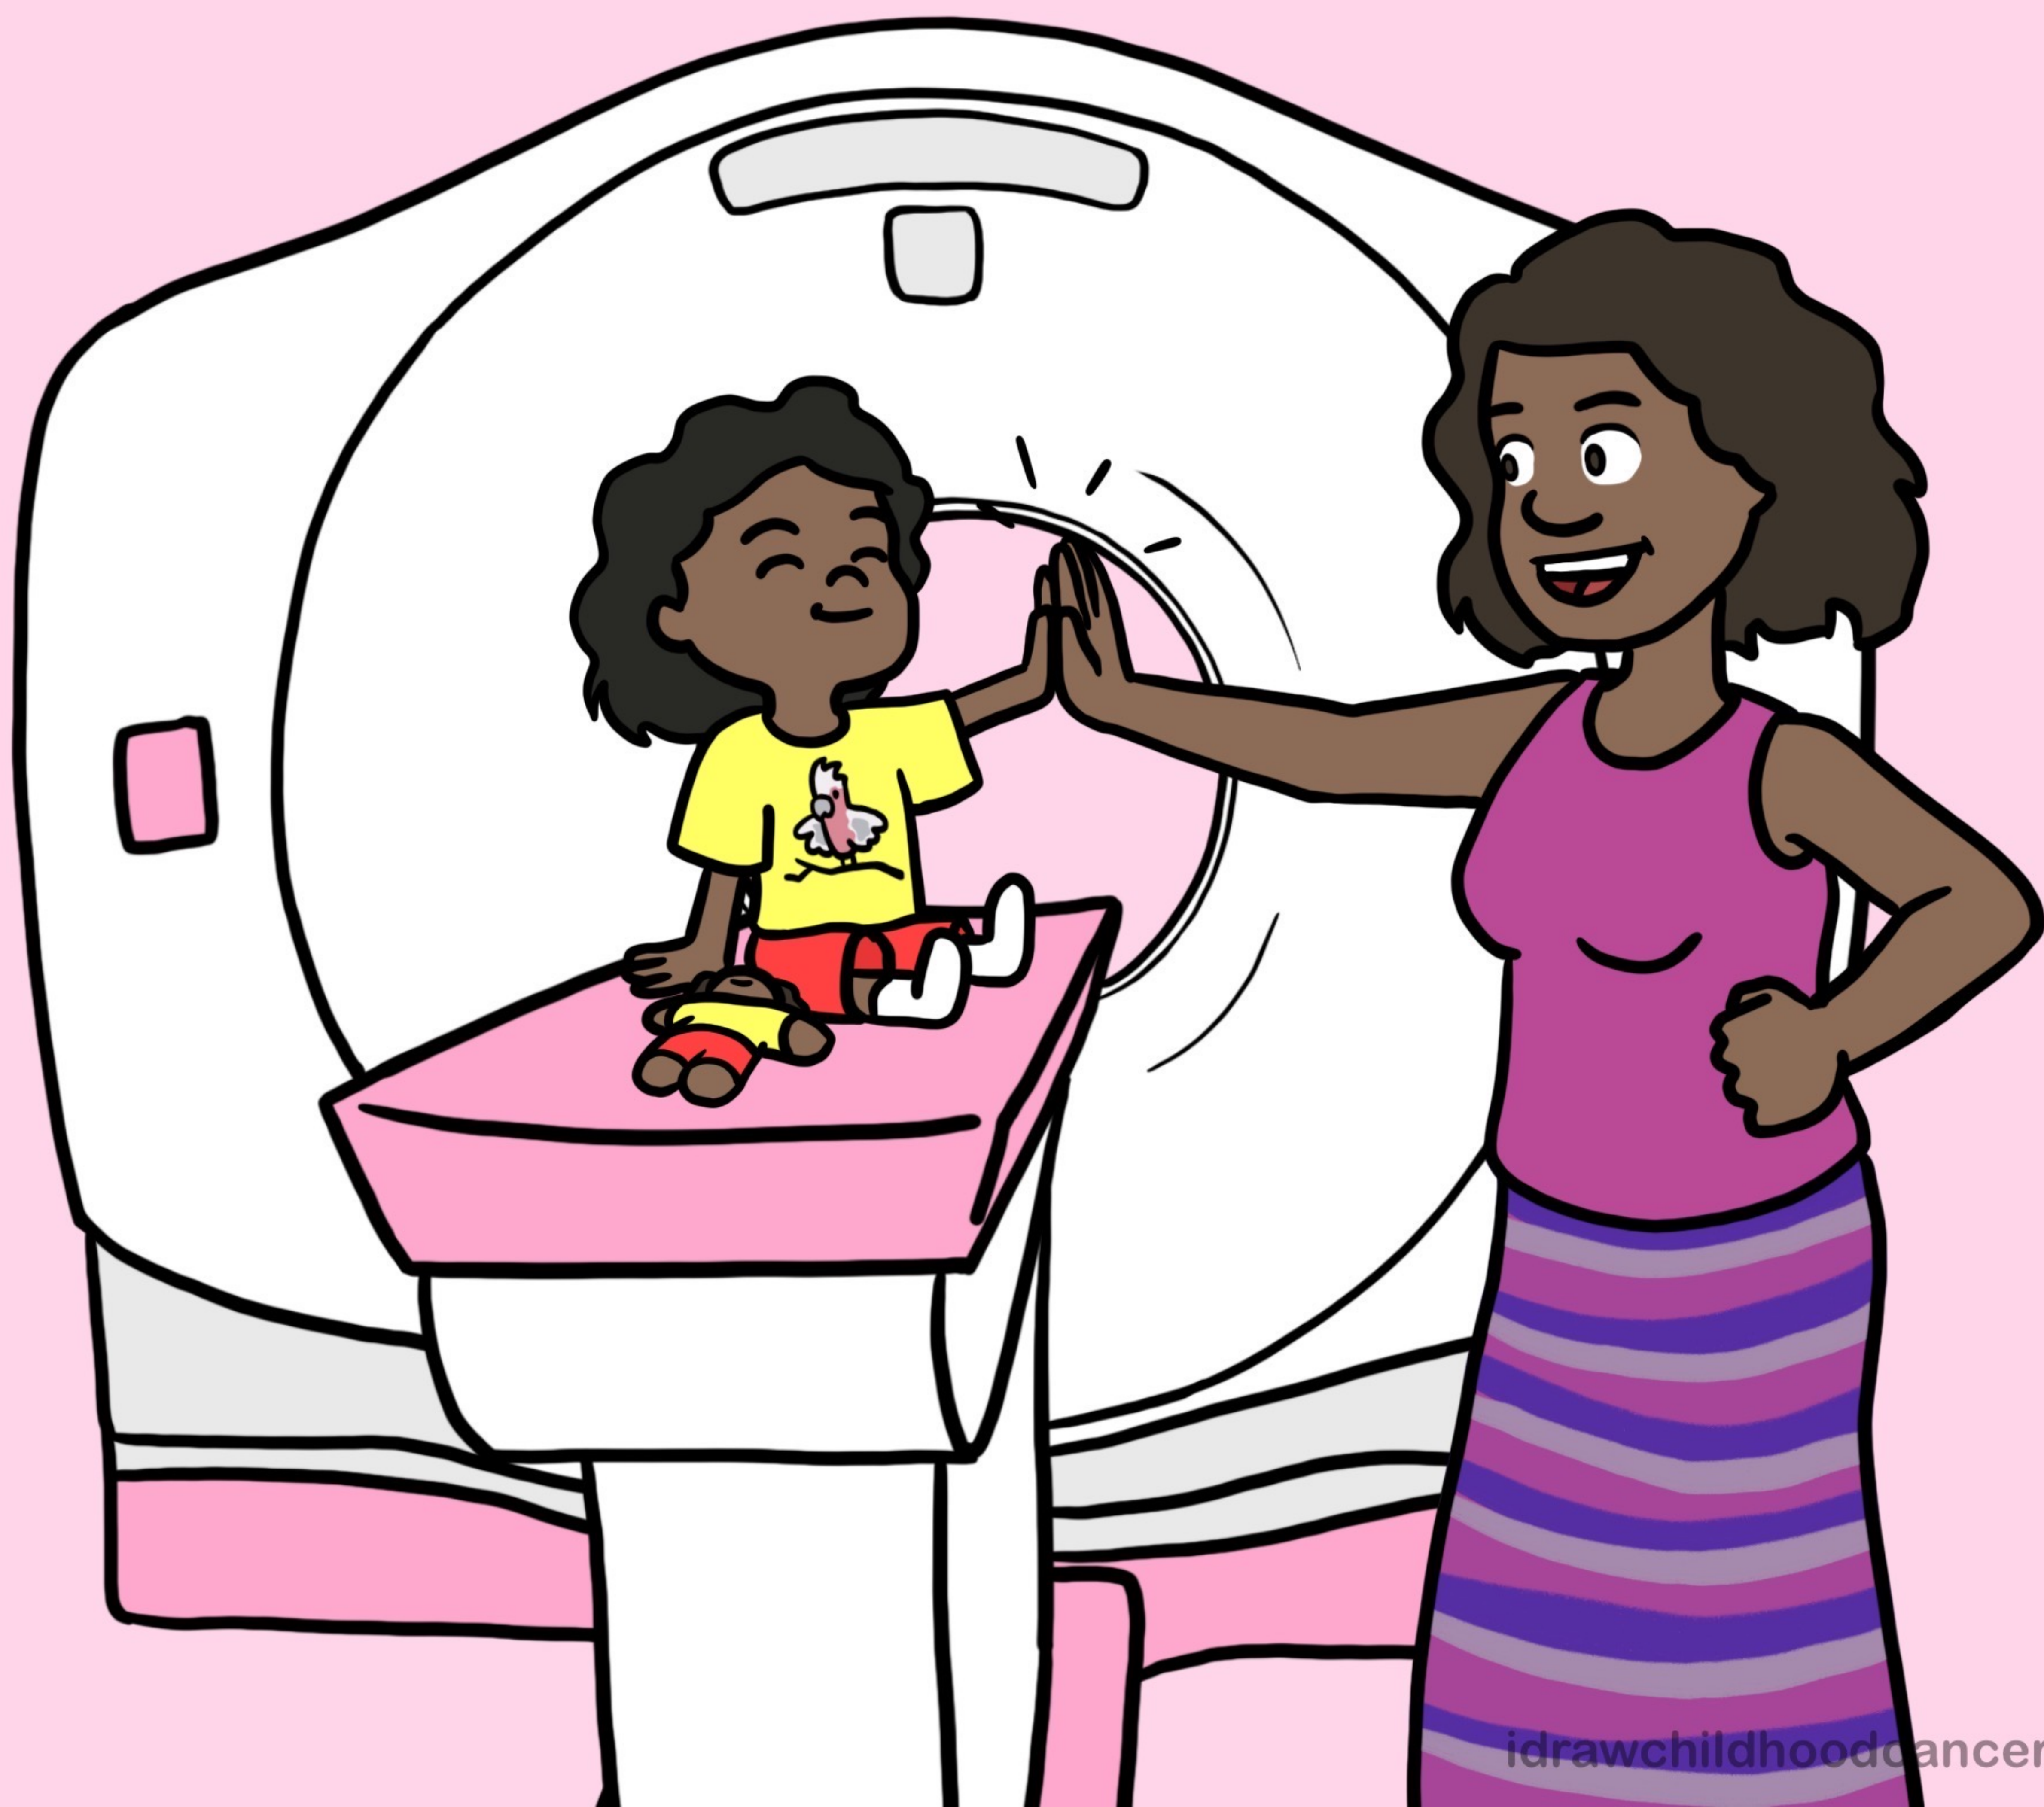

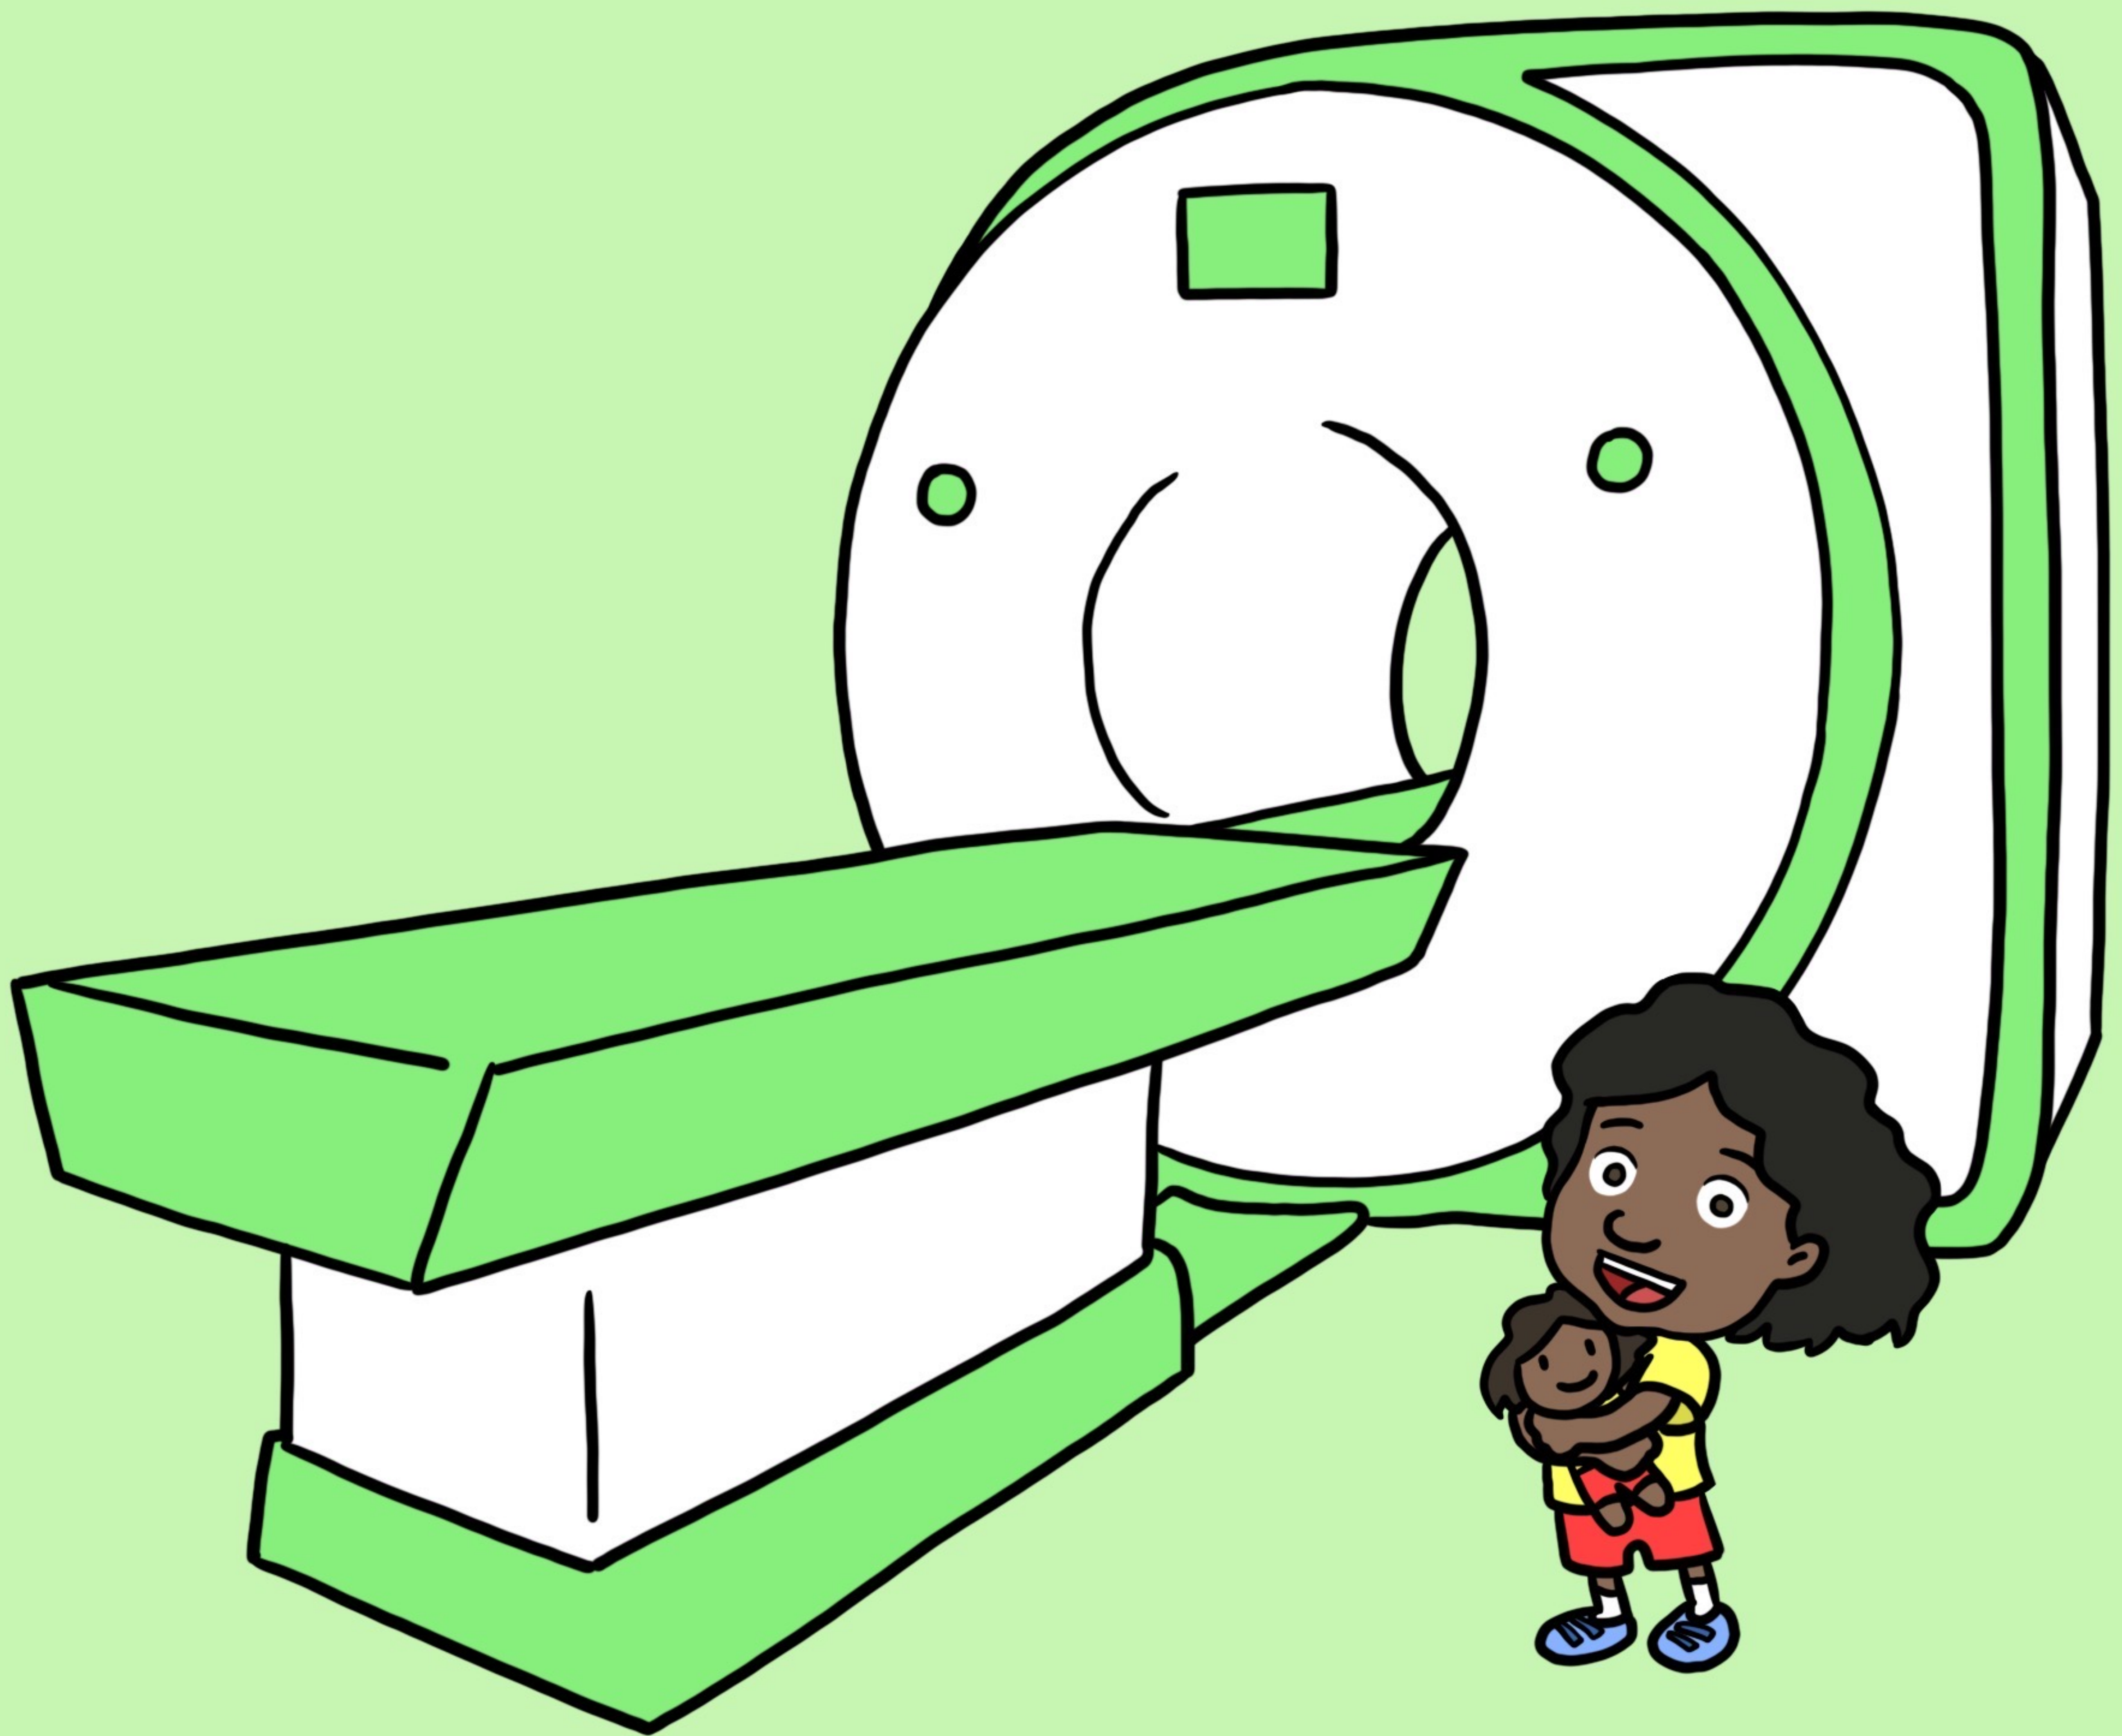

CT Scan inatumia x-rays ili
kupiga picha ndani ya mwili
wangu.

CT scan ninayofanyiwa ni salama,na
wanaonifanyia wananijali.

Scan ya nne naitwa MRI,nayenyewe pia ina umbo kama andazi la donut.

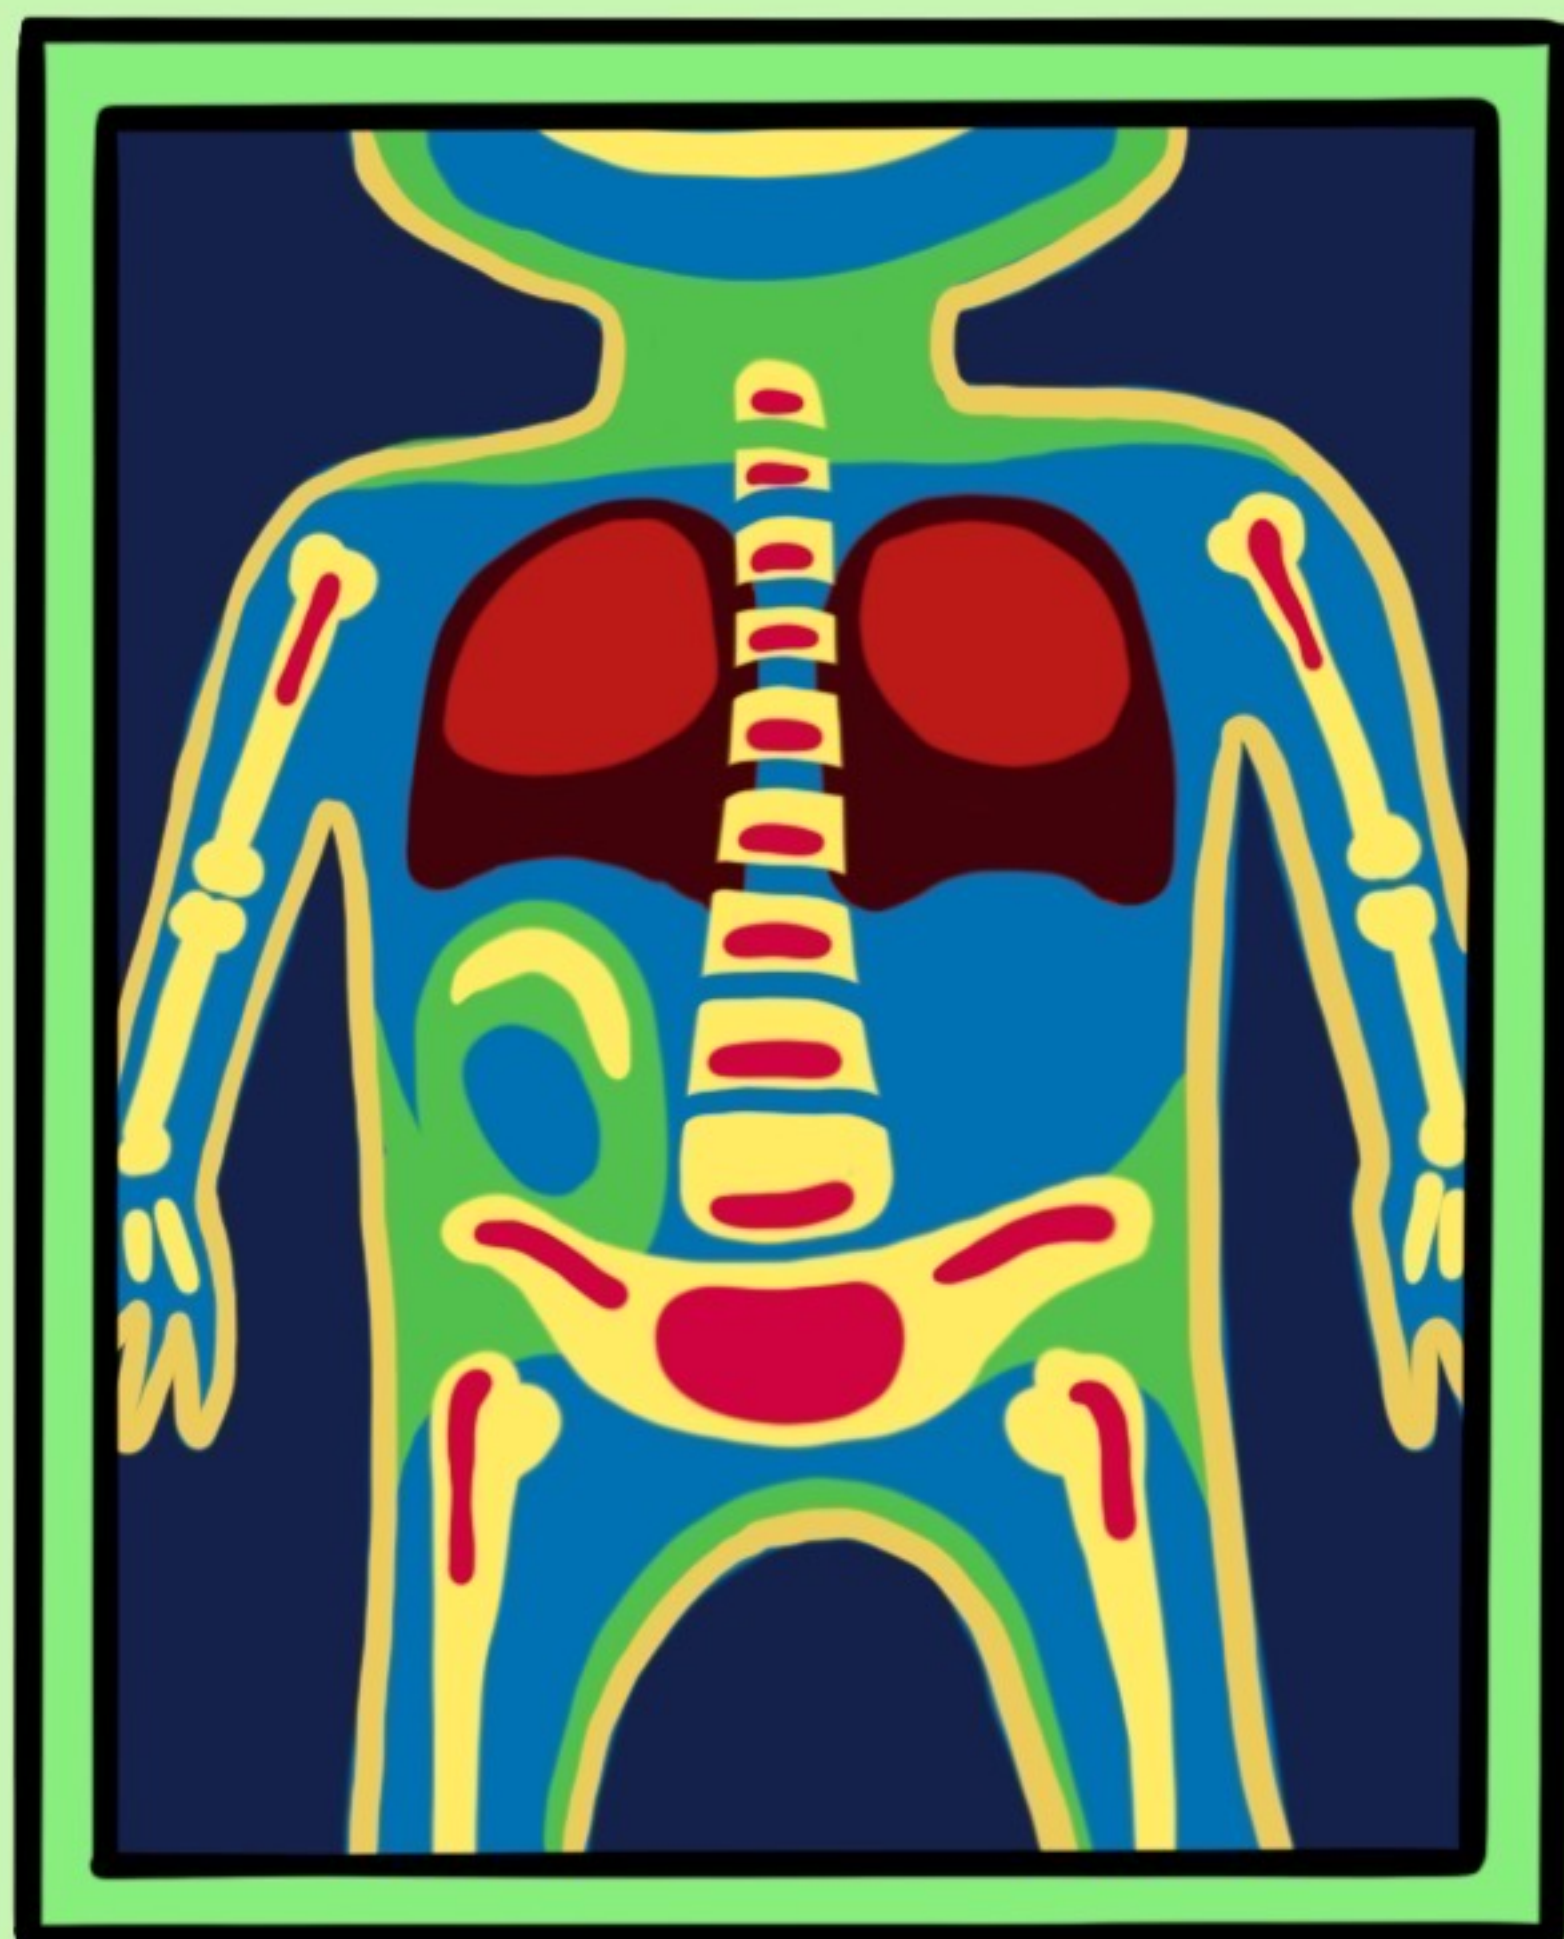

MRI scan ina kelele na Inachukua
mda mrefu, pia inahitaji utulivu mkubwa
pindi ninapokuwa nikifanyiwa!

Kipi kinaweza kunisaidia"?

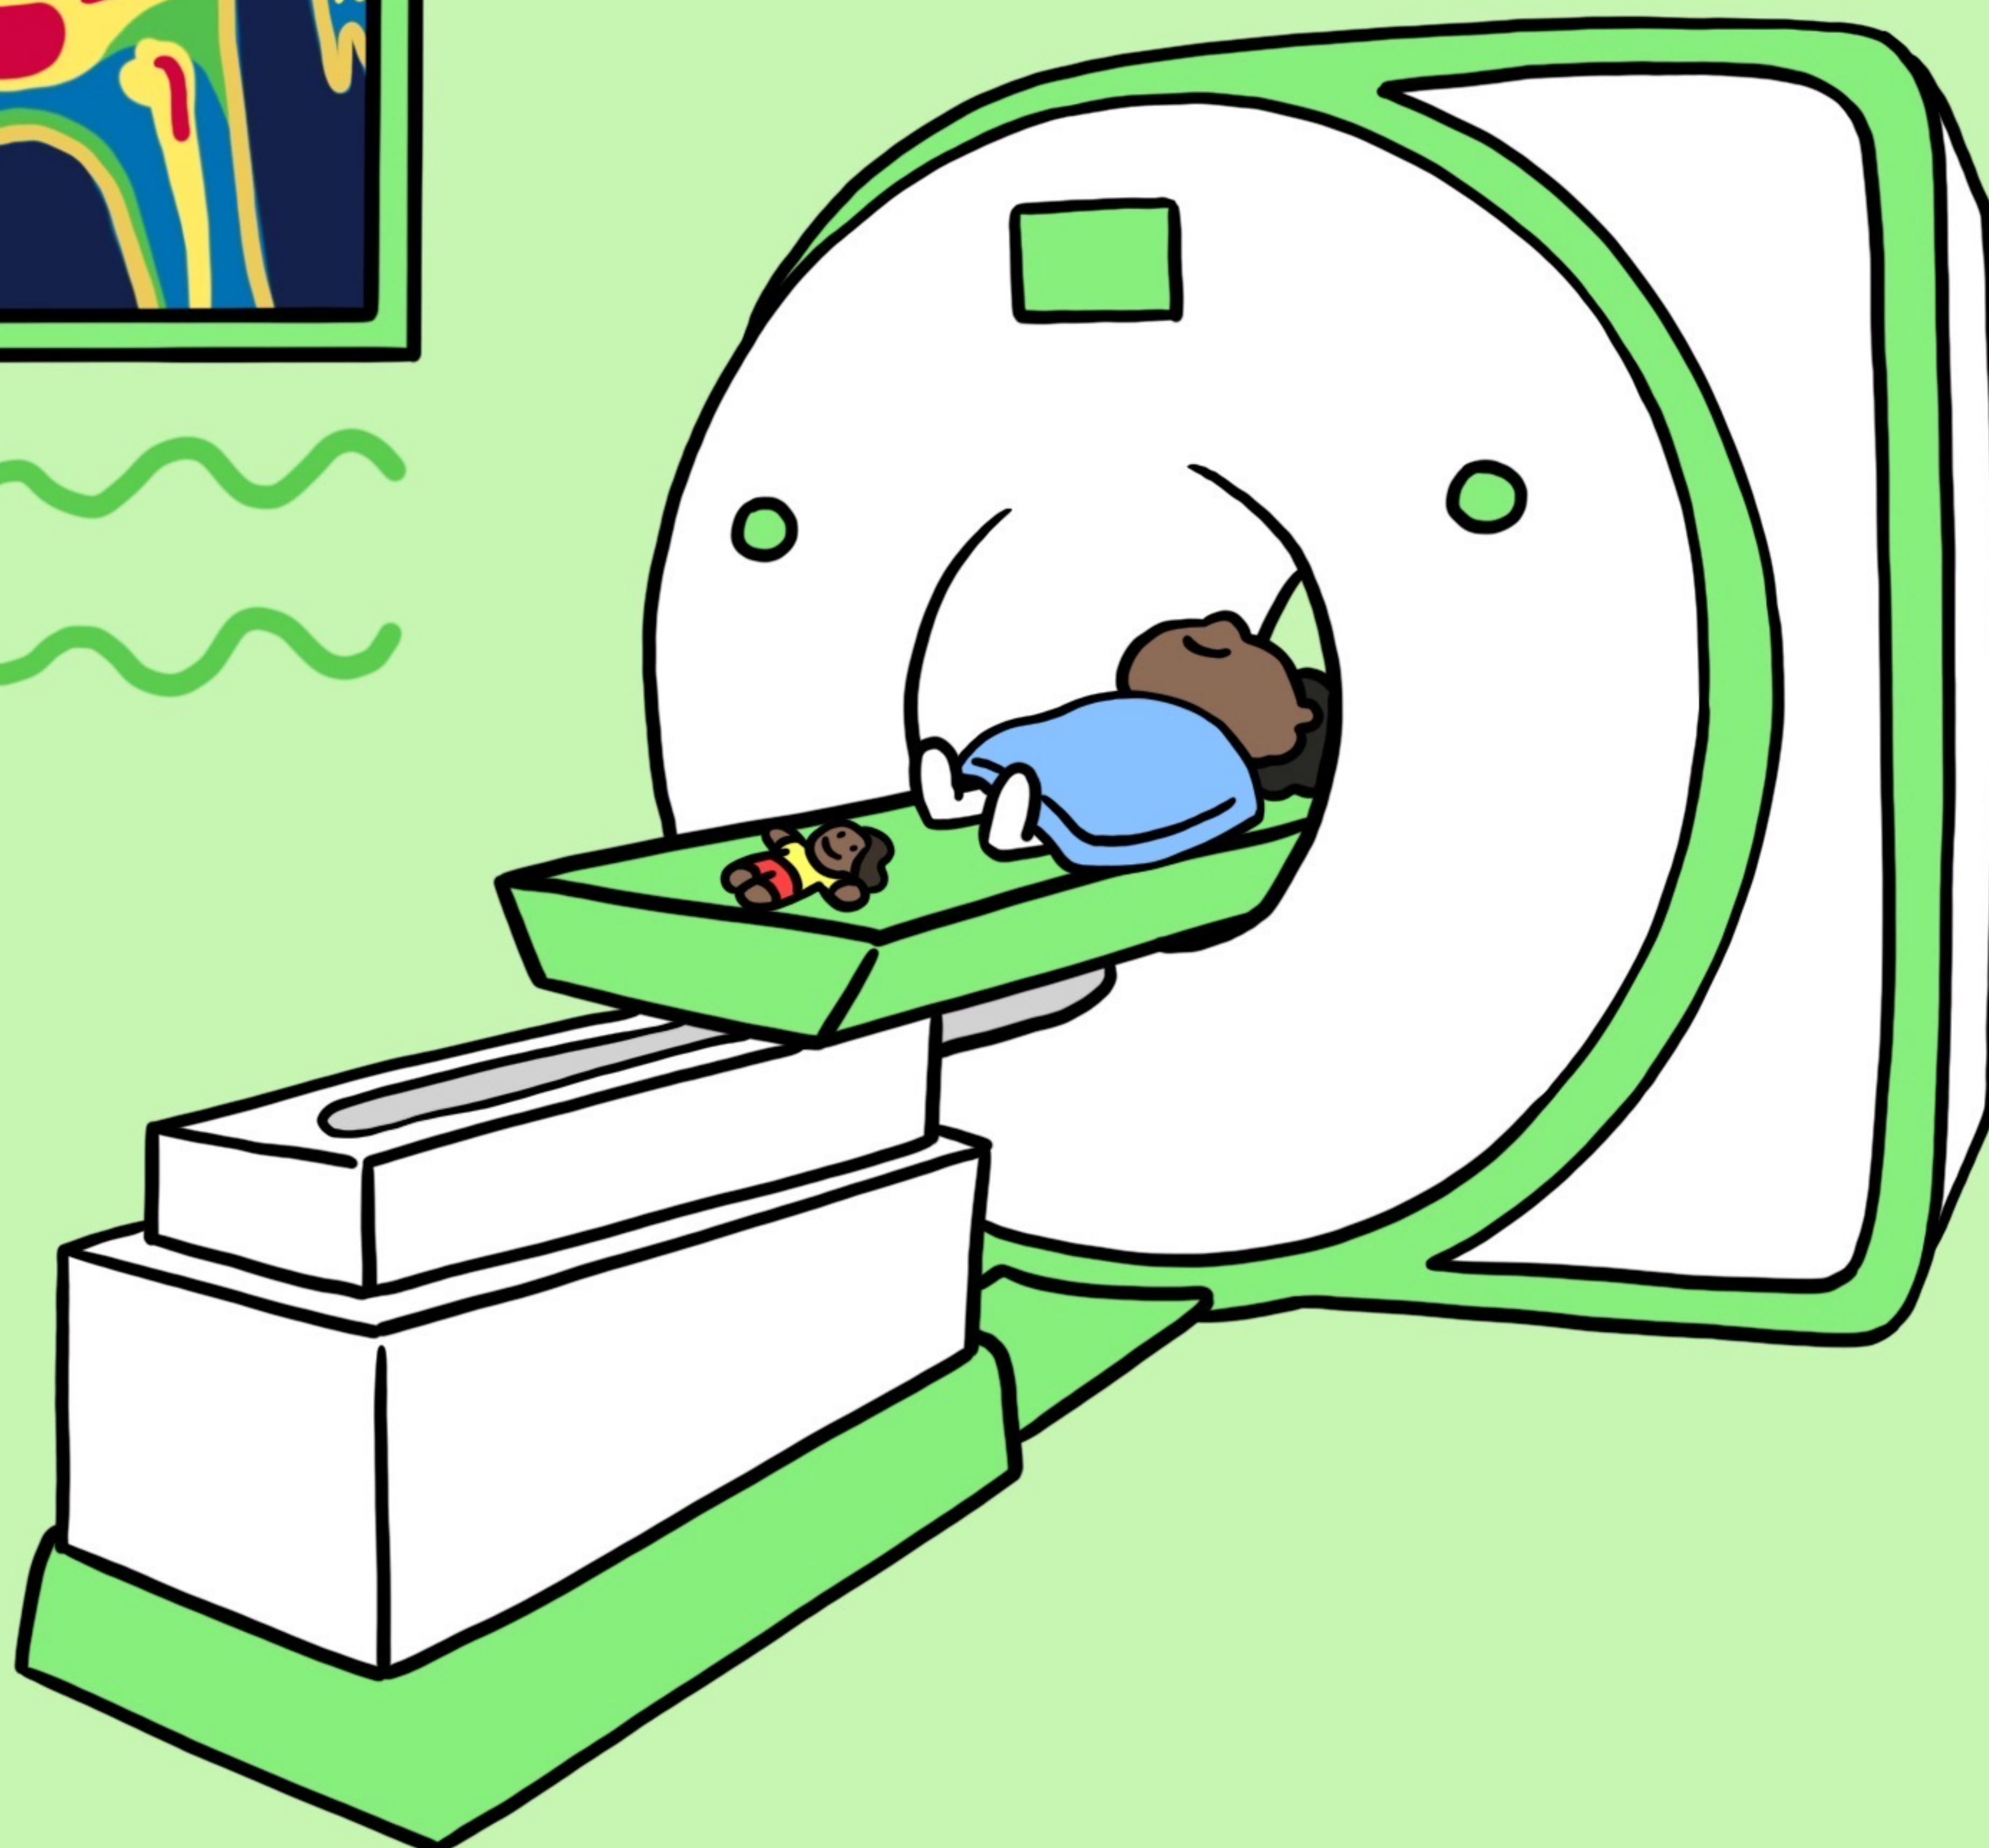

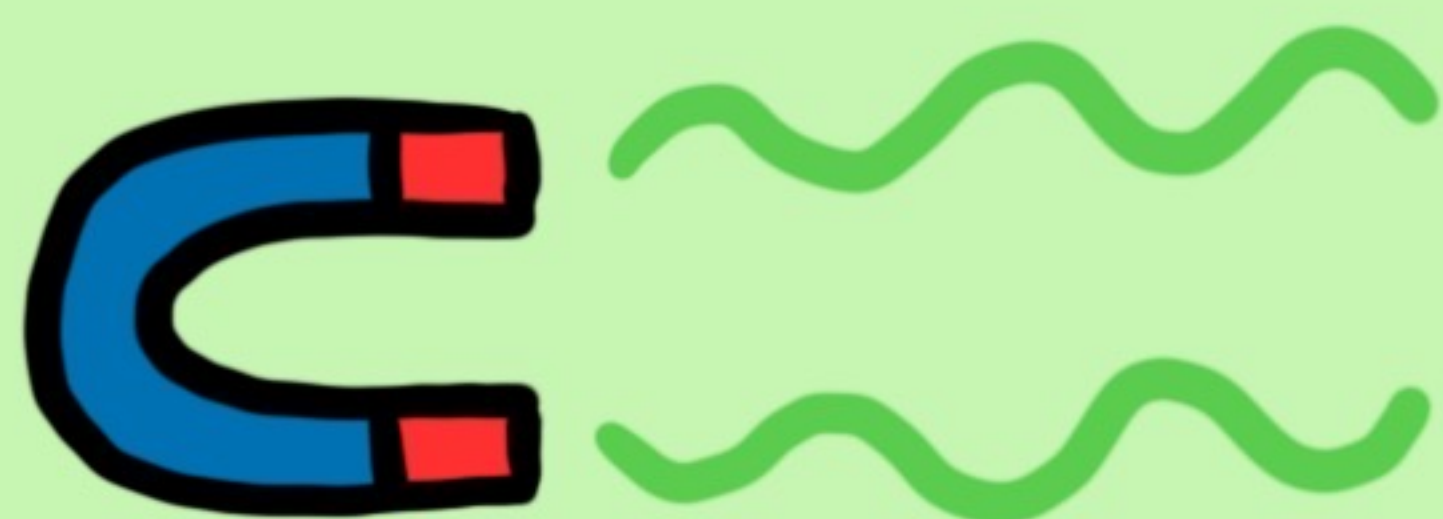

Usingizi kidogo unaweza nisaidia. Hivyo daktari hunivalisha barakoa yenye dawa ya usingizi wakati wa kulala. Sipendi harufu yake japo inanisaidia kupata usingizi.

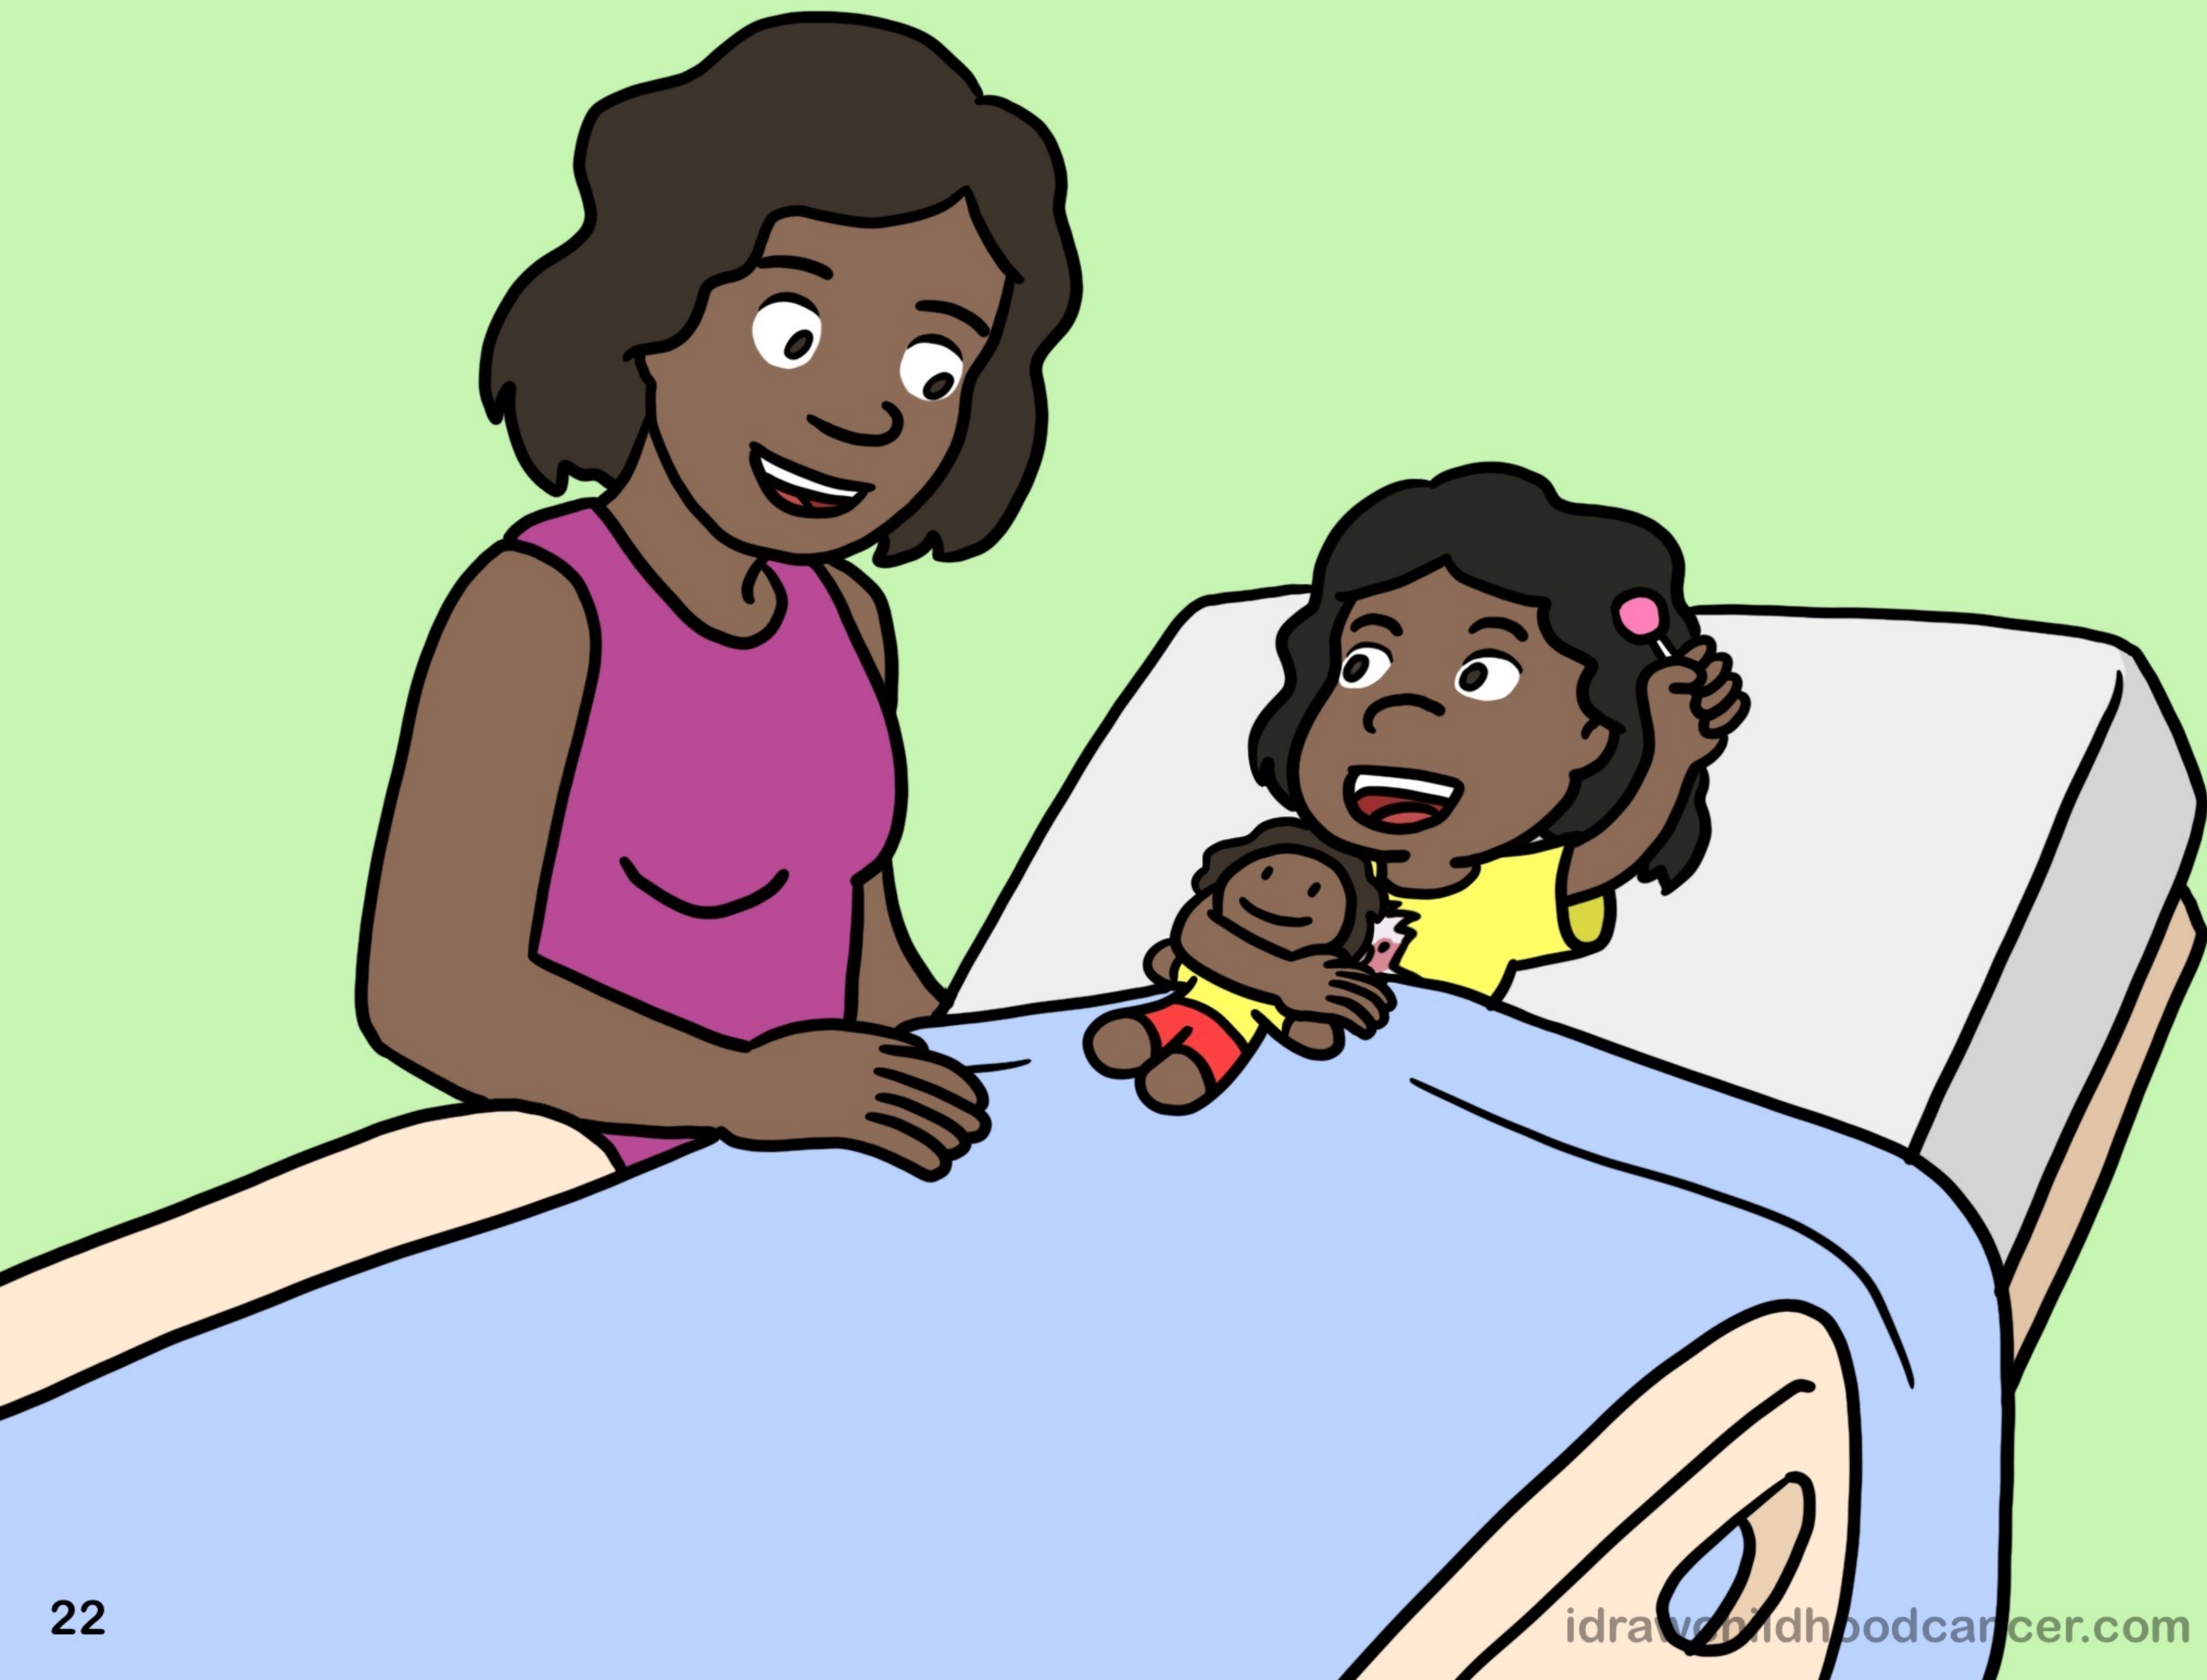

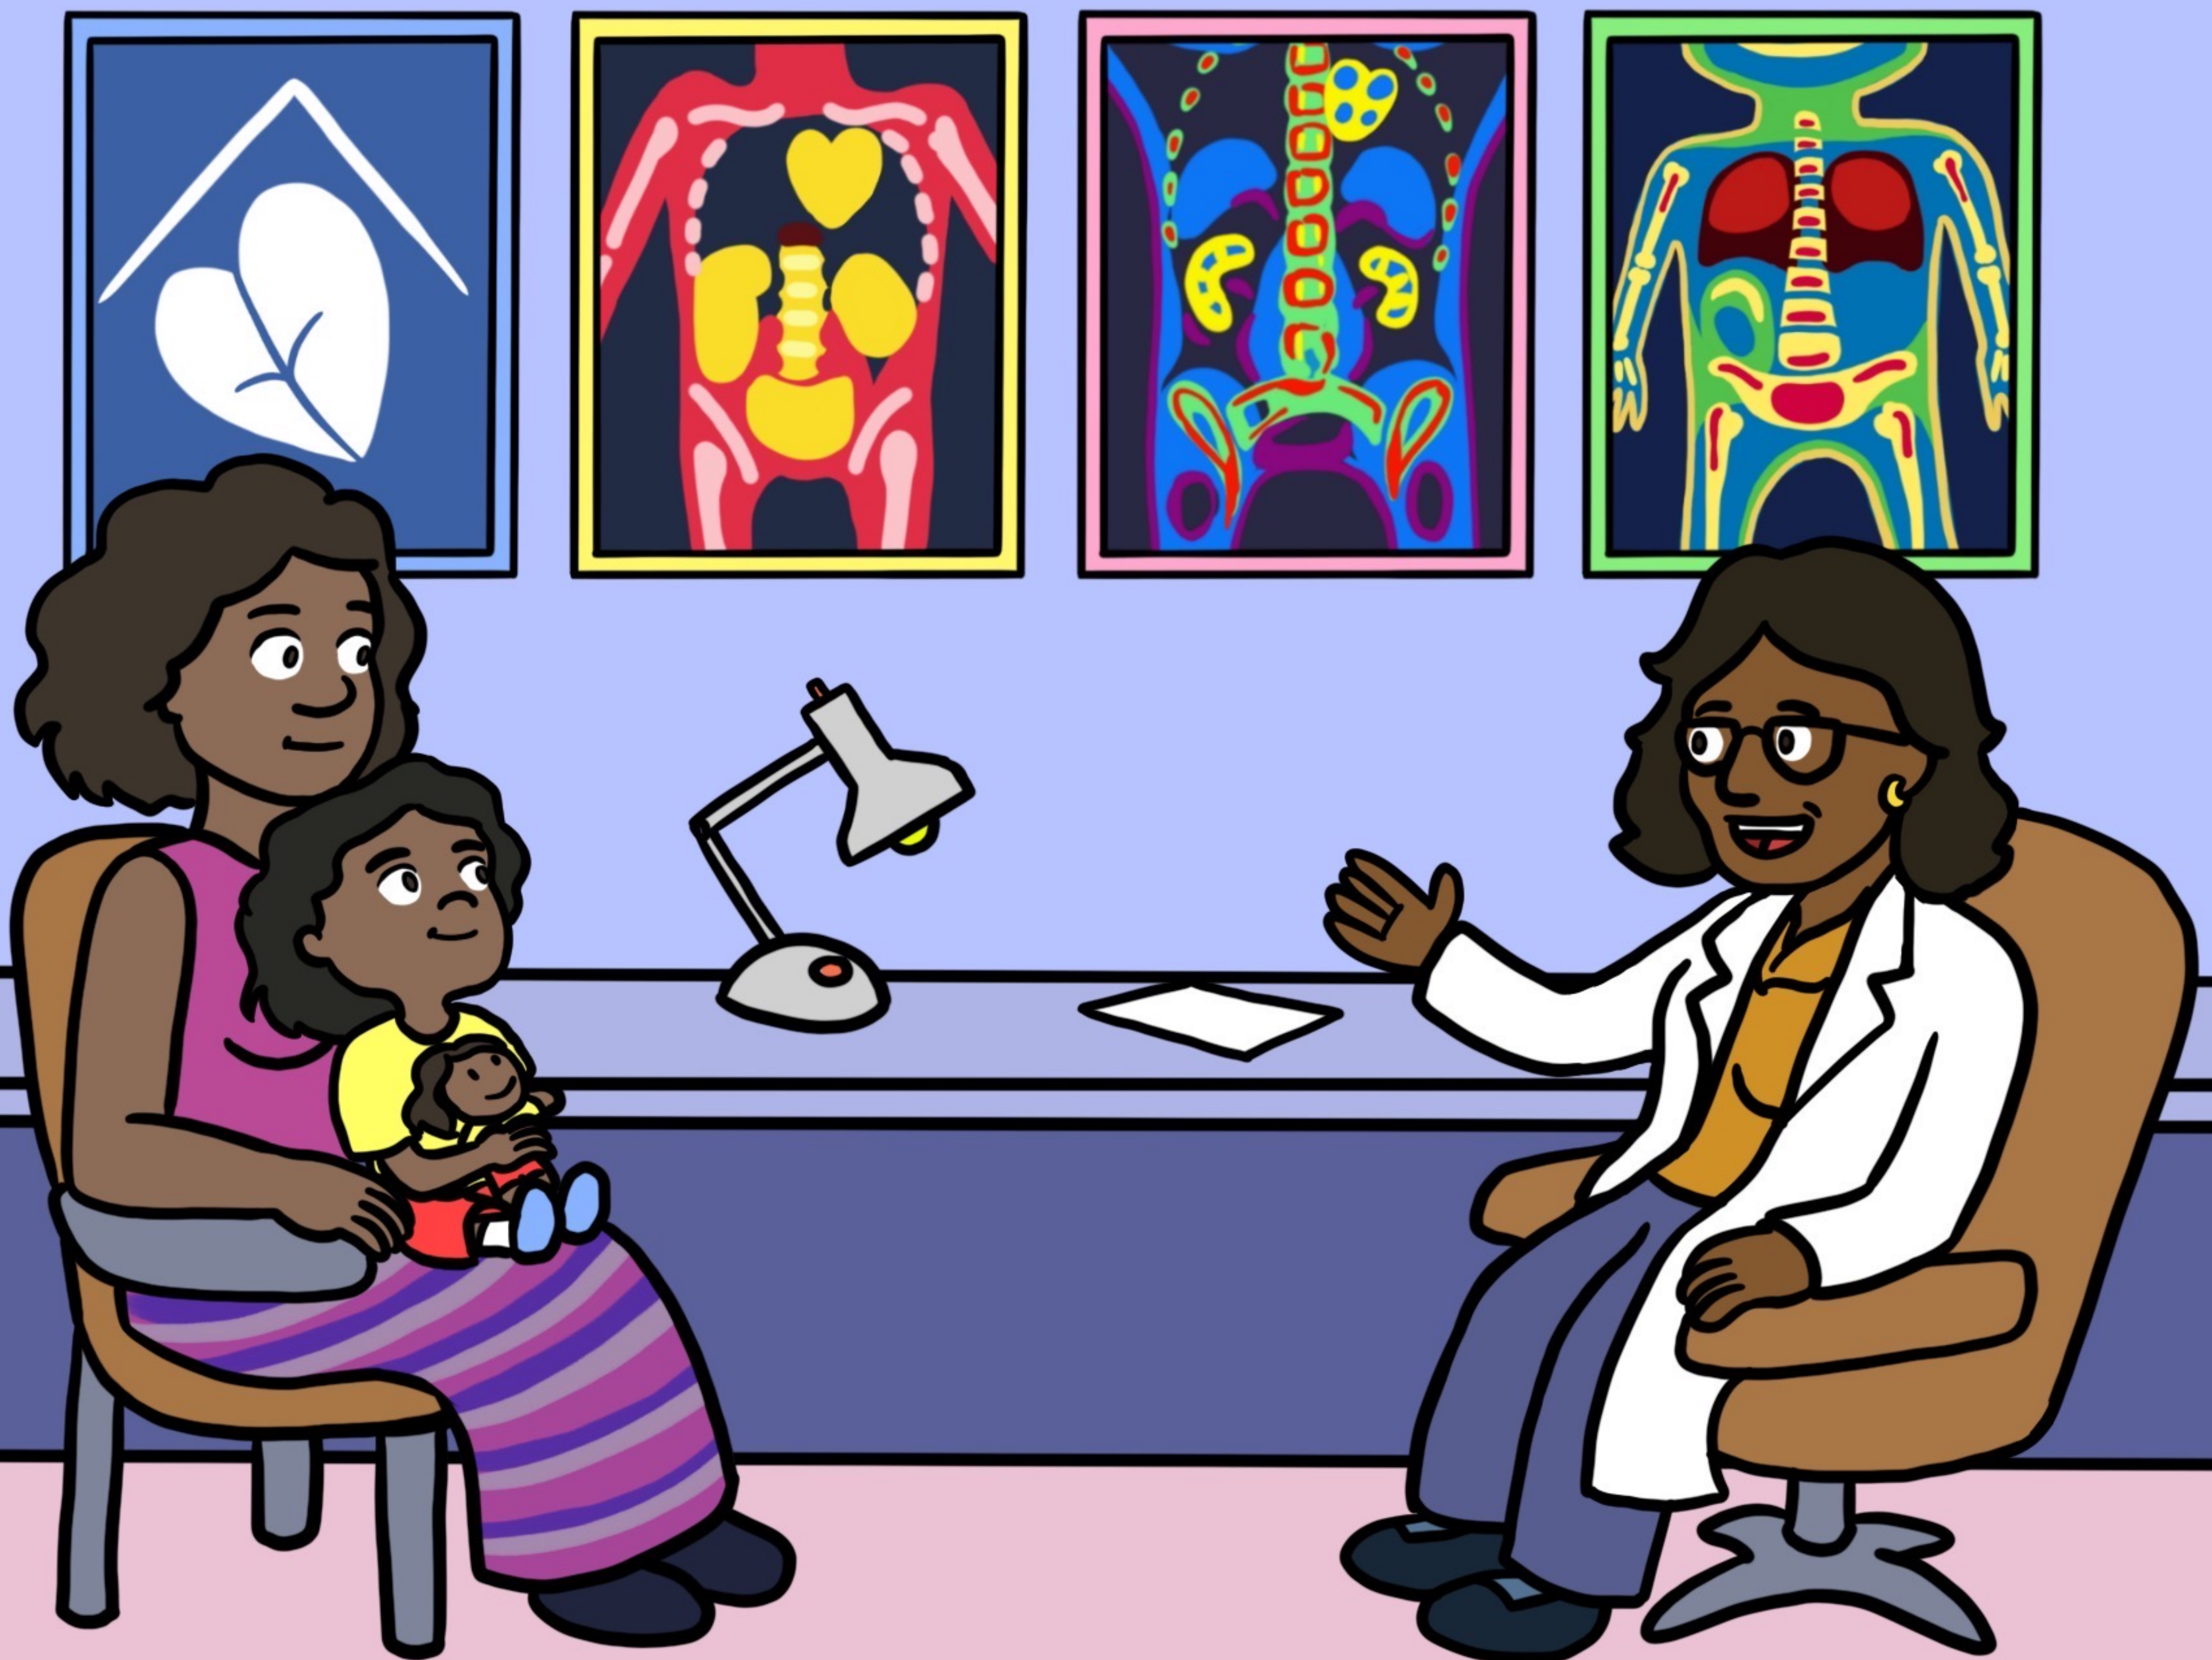

MRI inatumia sumaku
yenye nguvu sana ili
kuweza kupata picha ya
ndani ya mwili wangu.

MRI scan ninayofanyiwa ni salama,na
anae nifanyia ananijali.

Daktari huwa anakagua scan kuhakikisha niko salama. Sasa nimemaliza kufanyiwa scan, unajua sasa ni muda gani?

Ni muda wa kula Chips
kuku. Chakula gani
unapenda kula baada
ya kufanyiwa scan?
